The Making of Les Bleus Lindsay Sarah Krasnoff,2012-12-16 The Making of Les Bleus traces the Fifth Republic s quest to create elite athletes in two global team sports football and basketball primarily at the youth level While the objective of this mission was to improve performances at international competitions such programs were quickly seized upon to help ease domestic issues and tensions The onset of the Cold War forced countries of all sizes to rethink their relevancy A country s ability to exert soft power or influence others through the cultural sphere became more important Sport was but one way through which to do so The extent to which France harnessed the athletic domain was unprecedented among other West European nations In France sport particularly at the youth level was used to cultivate soft power internationally to transmit republican ideals of democracy and fair play to the youth and to examine and create a modern post colonial French identity in a globalizing world The French sought to find a third way in sports much in the way that it

sought to create an alternative between the diplomatic policies of Washington and Moscow Fifth Republic sports systems placed the training of elite athletes under the state At the same time private clubs also played an important role in developing players to serve the republic in elite competition Examination of the republic's quest to create elite athletes provides perspective on how France coped with and adapted to the post 1945 world In what ways did the country reconfigure its global role How did domestic changes impact society In a globalizing post colonial world how has France come to terms with the past In what ways has France sought to create a new French identity This story helps answer such questions The history of the state's cooption of youth sports forms a compelling tale and serves as a prism through which to investigate the larger history of France the evolution of society the impacts of the media revolution and the government's mission of public health It underscores just how much things have changed yet still remained the same You can find a podcast interview with the author about this book at <http://newbooksinsports.com> 2013 11 14 lindsay krasnoff the making of les bleus sport in france 1958 2010 lexington books 2012 Swiss International Sports Arbitration Reports (SISAR) - Vol. 1 Paolo Michele Patocchi ,Matthias Scherer,2012-06-01 The Swiss International Sports Arbitration Reports provides for the first time a full English translation of the decisions made by the Swiss Federal Supreme Court in setting aside proceedings against awards made by Court of Arbitration for Sport CAS panels irrespective of whether the original decision was published in the German French or Italian language or whether the decision has been officially published or is simply available on the Court's website The English translation is presented parallel to the original text of each decision and is preceded by a head note and a summary of the decision for the reader in a hurry The importance of the CAS based in Lausanne is well known to all practitioners engaged in sports law and arbitration It was once famously described as the Supreme Court of World Sports Whether a CAS panel decides in ordinary arbitration proceedings or in an appeal brought against the decision of a federation association or sports related body the Swiss Federal Supreme Court in Lausanne has the last word where the dissatisfied party challenges the CAS panel's decision in court proceedings This work is edited by two well known Swiss practitioners both of whom are engaged full time in international arbitration as counsel and arbitrators and have published widely on issues of international law and arbitration This publication will be of great use to arbitrators parties lawyers involved in sports arbitration as well as commentators who will benefit from access to case law in one key jurisdiction for international sports arbitration *Editor & Publisher* ,1920 **Current Catalog** National Library of Medicine (U.S.),1993 First multi year cumulation covers six years 1965 70 *Soccer, Women, Sexual Liberation* Fan Hong,J.A. Mangan,2004-11-23 This is the first in depth global study of women's football across the world This collection considers women's football in fifteen countries worldwide in a global context and analyzes its progress challenges and problems it has faced It shows how women's football has made a significant contribution to the emancipation of women's football in many countries It also traces the evolution of women's football in face of resistance rejection and prejudice and describes women footballer's struggle for equal rights in a male dominated

football world *The stadium century* Robert W. Lewis, 2016-12-08 The stadium century traces the history of stadia and mass spectatorship in modern France from the v lodromes of the late nineteenth century to the construction of the Stade de France before the 1998 soccer World Cup As the book demonstrates the stadium was at the centre of debates over public health and urban development and proved to be a key space for mobilising the urban crowd for political rallies and spectator sporting events alike After 1945 the transformed French stadium constituted part of the process of postwar modernisation but also was increasingly connected to global transformations to the spaces and practices of sport Drawing from a wide range of sources the stadium century links the histories of French urbanism mass politics and sport through the stadium in an innovative work that will appeal to historians students of French history and the history of sport and general readers alike
