The background features a white surface decorated with several bright yellow sunflowers. Overlaid on the left is a preview of a reading packet. The packet has a blue border and a decorative top. To the right of the packet, the text "8 PASSAGES WITH QUESTIONS" is displayed in large, bold, black capital letters.

QUESTIONS

The Secret World of Spy Technology

1. In the shadowy world of spies, some of the coolest gadgets aren't just from movies; they are real tools used by secret missions! Spies have been using amazing technology for years to gather information and stay undercover.
2. Take the spy pen, for example. It looks like any other pen you might use in school, but it has a secret camera inside. Real spies have used pens like this to take photos of important documents, and nobody around them is any wiser!
3. Then there's the tiny device known as a bug. This isn't an insect, but a super small microphone that's almost invisible. Spies place it discreetly in a room, and it can capture every word spoken, even if the spy is somewhere nearby. They can hear everything later, just like they were there!
4. Spies also have special glasses that do more than help them see. These glasses are equipped with a hidden camera. When a spy looks at something important, they can take a photo just by pressing a hidden button! It's like having a memory that never forgets a face or a secret code.
5. And what about their shoes? Would you believe that the soles can hide secret messages? Yes, spies have actually passed notes and tiny films hidden under their shoe soles. It's a clever way to carry information that no one would ever think to check.
