Handbook of Social Influences in School Contexts Kathryn R. Wentzel, Geetha B. Ramani, 2016-01-13 The Handbook of Social Influences in School Contexts draws from a growing body of research on how and why various aspects of social relationships and contexts contribute to children's social and academic functioning within school settings. Comprised of the latest studies in developmental and educational psychology, this comprehensive volume is perfect for researchers and students of Educational Psychology. Beginning with the theoretical perspectives that guide research on social influences, this book presents foundational research before moving on to chapters on peer influence and teacher influence. Next, the book addresses ways in which the school context can influence school-related outcomes, including peer and teacher-student relationships, with specific attention to research in motivation and cognition. Within the chapters, authors not only present current research but also explore best practices, drawing in examples from the classroom. With chapters from leading experts in the field, The Handbook of Social Influences in School Contexts provides the first complete resource on this topic.

Ready or Not Stacie G. Goffin, Valora Washington, 2019-06-07 Ready or Not made its mark in 2007 by boldly calling for a field-wide response to the question: What defines and bounds early care and education as a field of practice? A dozen years later, this question remains pivotal to the field's understanding of its present and its aspirations for the future. In this updated and expanded edition, Goffin and Washington reunite to examine the major issues that must still be addressed if children are to be given more and better opportunities. This second edition will help everyone whose work impacts the ECE workforce, including those working directly with children, to deepen their commitment to adaptive and systems work and to develop the leadership capacity needed to become change agents. Ready or Not: early childhood education needs to tackle its adaptive challenges. Nothing less will enable it to shift the field's developmental trajectory, fulfill its potential, and satisfy its obligations to children, families, and society. The second edition of Ready or Not is a reflective self-examination of the field of early care and education. It is a must-read book. Marquita Furness Davis, Bill Melinda Gates Foundation. Goffin and Washington boldly identify the barriers and opportunities we face. Anne Douglass, University of Massachusetts Boston. A must-read for those that are invested in early care and education. Tracy Ehlert, State Representative for Iowa House District 70, Cedar Rapids, IA. A must-read for everyone who is committed to the field's success. Ariel Ford, Office of Early Learning, City of Chattanooga.
