employed the techniques of mnemonic recollection and imaginative visualization Read in this light it becomes clear that the architectural form underlying these semi circular configurations served to open the possibilities for meaning by making the sculptural imagery physically and philosophically accessible to both the monastic community and the lay parishioner Pointing to an Iberian heritage in which both light and space had long been manipulated in the conveyance of theological and political ideologies Abel suggests that the portal s architectural form grew out of a physical and social matrix characterized by pilgrimage crusade and processions where the elements of motion integral to the Quadrivium sciences of Math Geometry Astronomy and Music were enhanced by a proximity to and cultural interaction with the Islamic courts of Spain It was however within the politics of the Peace of God movement with its emphasis on relic processions that often encompassed all the parishes of the monastic domain that the archivolted portal with its elevated porch like space are shown to be the most effective

The Eastern Archaic, Historicized Kenneth E. Sassaman, 2010-08-16 The Eastern Archaic Historicized offers an alternative perspective on the genesis and transformation of cultural diversity over eight millennia of hunter gatherer dwelling in eastern North America For many decades archaeological understanding of Archaic diversity has been dominated by perspectives that emphasize localized relationships between humans and environment The evidence shows however that Archaic people routinely associated with other groups throughout eastern North America and expressed themselves materially in ways that reveal historical links to other places and times Starting with the colonization of eastern North America by two distinct ancestral lines the Eastern Archaic was an era of migrations ethnogenesis and coalescence an 8 200 year era of making histories through interactions and expressing them culturally in ritual and performance

Teaching Mathematics for the 21st Century Linda Huetinck, Sara N.
