Springboard Mathematics, 2014 Algebra in the Early Grades James J. Kaput, David W. Carraher, Maria L. Blanton, 2017-09-25 This volume is the first to offer a comprehensive research based multi faceted look at issues in early algebra In recent years the National Council for Teachers of Mathematics has recommended that algebra become a strand flowing throughout the K 12 curriculum and the 2003 RAND Mathematics Study Panel has recommended that algebra be the initial topical choice for focused and coordinated research and development in K 12 mathematics This book provides a rationale for a stronger and more sustained approach to algebra in school as well as concrete examples of how algebraic reasoning may be developed in the early grades It is organized around three themes The Nature of Early Algebra Students Capacity for Algebraic Thinking Issues of Implementation Taking Early Algebra to the Classrooms The contributors to this landmark volume have been at the forefront of an effort to integrate algebra into the existing early grades mathematics curriculum They include scholars who have been developing the conceptual foundations for such changes as well as researchers and developers who have led empirical investigations in school settings Algebra in the Early Grades aims to bridge the worlds of research practice design and theory for educators researchers students policy makers and curriculum developers in mathematics education The Probability Lifesaver Steven J. Miller, 2017-05-16 The essential lifesaver for students who want to master probability For students learning probability its numerous applications techniques and methods can seem intimidating and overwhelming That s where The Probability Lifesaver steps in Designed to serve as a complete stand alone introduction to the subject or as a supplement for a course this accessible and user friendly study guide helps students comfortably navigate probability s terrain and achieve positive results The Probability Lifesaver is based on a successful course that Steven Miller has taught at Brown University Mount Holyoke College and Williams College With a relaxed and informal style Miller presents the math with thorough reviews of prerequisite materials worked out problems of varying difficulty and proofs He explores a topic first to build intuition and only after that does he dive into technical details Coverage of topics is comprehensive and materials are repeated for reinforcement both in the guide and on the book s website An appendix goes over proof techniques and video lectures of the course are available online Students using this book should have some familiarity with algebra and precalculus The Probability Lifesaver not only enables students to survive probability but also to achieve mastery of the subject for use in future courses A helpful introduction to probability or a perfect supplement for a course Numerous worked out examples Lectures based on the chapters are available free online Intuition of problems emphasized first then technical proofs given Appendixes review proof techniques Relaxed conversational approach *Algebra: Themes, Tools, Concepts -- Teachers' Edition* Henri Picciotto, Anita Wah, 1994 *Ring Theory V2*, 1988-07-01 *Ring Theory V2* *Ring Theory, 83* Louis H. Rowen, 2012-12-02 This is an abridged edition of the author s previous two volume work *Ring Theory* which concentrates on essential material for a general ring theory course

while omitting much of the material intended for ring theory specialists It has been praised by reviewers As a textbook for graduate students Ring Theory joins the best The experts will find several attractive and pleasant features in Ring Theory The most noteworthy is the inclusion usually in supplements and appendices of many useful constructions which are hard to locate outside of the original sources The audience of nonexperts mathematicians whose speciality is not ring theory will find Ring Theory ideally suited to their needs They as well as students will be well served by the many examples of rings and the glossary of major results NOTICES OF THE AMS
