Natural Visions Finis Dunaway, 2016-12-20 Walden Pond The Grand Canyon Yosemite National Park Throughout the twentieth century photographers and filmmakers created unforgettable images of these and other American natural treasures Many of these images including the work of Ansel Adams continue to occupy a prominent place in the American imagination Making these representations though was more than a purely aesthetic project In fact portraying majestic scenes and threatened places galvanized concern for the environment and its protection Natural Visions documents through images the history of environmental reform from the Progressive era to the first Earth Day celebration in 1970 showing the crucial role the camera played in the development of the conservation movement In Natural Visions Finis Dunaway tells the story of how visual imagery such as wilderness photographs New Deal documentary films and Sierra Club coffee table books shaped modern perceptions of the natural world By examining the relationship between the camera and environmental politics through detailed studies of key artists and activists Dunaway captures the emotional and spiritual meaning that became associated with the American landscape Throughout the book he reveals how photographers and filmmakers adapted longstanding traditions in American culture the Puritan jeremiad the romantic sublime and the frontier myth to literally picture nature as a place of grace for the individual and the nation Beautifully illustrated with photographs by Ansel Adams Eliot Porter and a host of other artists Natural Visions will appeal to a wide range of readers interested in American cultural history the visual arts and environmentalism In Pursuit of Spring Edward Thomas, 2011-01-01 I had planned to start on March 21 and rather late than early to give the road time for drying The light arrived bravely and innocently enough at sunrise too bravely for by eight o'clock it was already abashed by a shower There could be no doubt that either I must wait for a better day or at the next convenient fine interval I must pretend to be deceived and set out prepared for all things So at ten I started with maps and sufficient clothes to replace what my waterproof could not protect from rain The suburban by

streets already looked rideable but they were false prophets the main roads were very different For example the surface between the west end of Nightingale Lane and the top of Burntwood Lane was fit only for fancy cycling in and out among a thousand lakes a yard wide and three inches deep These should either have been stocked with gold fish and aquatic plants or drained but some time had been allowed to pass without either course being adopted It may be that all the draining forces of the neighbourhood had been directed to emptying the ornamental pond on Wandsworth Common Empty it was and the sodden bed did not improve the look of the common flat by nature flatter by recent art The gorse was in bloom amidst a patchwork of turf gravel and puddle Terriers raced about or trifled A flock of starlings bathed together in a puddle until scared by the dogs A tall stern bald man without a hat strode earnestly in a straight line across the grass and water as if pleasure had become a duty He was alone on the common In all the other residences that form walls round the common almost on every side hot cross buns had proved more alluring than the rain and the south west wind The scene was in fact one more likely to be pleasing in a picture than in itself It was tame it was at once artificial and artless and touched with beauty only by the strong wind and by the subdued brightness due to the rain Its breadth and variety were sufficient for it to respond something as Exmoor or Mousehold Heath or Cefn Bryn in Gower would have responded to the cloudily shattered light the threats and the deceptions and the great sweep of the wind But there was no one painting those cold expanses of not quite lusty grass the hard dull gravel the shining puddles the dark gold flecked gorse the stiff scanty trees with black bark and sharp green buds the comparatively venerable elms of Bolingbroke Grove the backs and fronts of houses of no value save to their owners and the tall chimney stacks northwards Perhaps only a solitary artist or some coldish sort of gnome or angel could have thoroughly enjoyed this moment That it was waiting for such a one I am certain I am almost equally certain that he could create a vogue in scenes like this one which are only about a thousandth part as unpleasant as a cold bath and possess furthermore elements of divinity lacking both to the cold bath and to the ensuing bun It is easier to like the blackbird s shrubbery the lawn the big elm or oak and the few dozen fruit trees of the one or two larger and older houses surviving for example at the top of Burntwood Lane The almond the mulberry the apple trees in these gardens have a menaced or actually caged loveliness as of a creature detained from some world far from ours if they are not as in some cases they are the lost angels of ruined paradises
