Educational Curricula Jennifer N. Casey, 2008. In formal education a curriculum plural curricula is the set of courses and their content offered at a school or university. As an idea curriculum stems from the Latin word for race course referring to the course of deeds and experiences through which children grow and mature in becoming adults. Crucial to the curriculum is the definition of the course objectives that usually are expressed as learning outcomes and normally include the program's assessment strategy. These outcomes and assessments are grouped as units or modules and therefore the curriculum comprises a collection of such units each in turn comprising a specialised specific part of the curriculum. So a typical curriculum includes communications, numeracy, information technology and social skills units with specific specialised teaching of each. This book presents research on educational curricula from around the world.

Educational Response, Inclusion and Empowerment for SDGs in Emerging Economies Mustafa Öztürk, 2022-08-22. This volume analyzes cases from emerging economies in relation to the global endeavor to promote the vision of sustainable development in all forms of education. It aims to discuss the significance of hearing local voices and understanding local discourse regarding strategies for action for change and the role of educational systems as a means to communicate, promote and educate for the Sustainable Development Goals (SDGs). In this context, the book highlights how education in emerging economies could extend conventional economic methods to sustainability issues or depart from money based calculations and business dominated values to promotion of real life considerations and ethical, environmental and humanistic values. With the help of this volume, readers will have a chance to look at educational response, inclusion and empowerment for SDGs in countries with emerging economies and to grasp the synthesis of Education for Sustainable Development, Global Citizenship Education (ESD/GCE) within the overall national educational systems.
