WHO neonatal resuscitation manikin, 2021-10-15 The United Nations Commission on Life-Saving Commodities (UNCLSC) 2012 defined 13 health products to end preventable deaths of women and children. One of those 13 products is the neonatal resuscitator, an indispensable medical device to save newborns from asphyxia at birth. For the efficient use of neonatal resuscitation, training of healthcare professionals using neonatal resuscitation manikins is the most effective approach. Critical lifesaving trainings call for the need of neonatal resuscitation manikins with the right features. The purpose of the WHO neonatal resuscitation manikin technical specifications is to provide a minimum standard baseline to meet the increasing demand to procure good quality, affordable, accessible, and appropriate neonatal resuscitation manikins. Towards the development of this baseline, this document includes compilation of available scientific evidence from technical literature, international publications, expert reviews, and an industry survey which was conducted by WHO medical devices team.
