Emerging Business Opportunities in Africa: Market Entry, Competitive Strategy, and the Promotion of Foreign Direct Investments Gekonge, Christopher O., 2013-09-30 Despite its often mismanaged economy Africa remains the third largest continent in land mass and population It continues to offer unexploited business opportunities for entrepreneurs global corporations and institutions Emerging Business Opportunities in Africa Market Entry Competitive Strategy and the Promotion of Foreign Direct Investments presents the basic business modeling for developing appropriate strategies in exploiting these business opportunities in the emerging economy in Africa This book offers insight into the challenges and successes aiming to encourage researchers and students of business in creating a value for doing business in Africa

Working Globesmart Ernest Gundling, 2003-07-16 Your guide to global citizenship for 21st century success Taking a new assignment in your company's foreign office Meeting a business associate from another country Videoconferencing with a group of global co-workers Negotiating a project deadline with the foreign software engineer across the hall Learn how to apply a new set of cultural competencies to successfully cross national or cultural boundaries Working GlobeSmart shows how global people skills add value to global business and captures the essence of what global leadership means the ability to create a corporate culture that builds cooperation across borders and cultures between customers and suppliers across every organizational line

Developing a Successful Subsidiary Strategy Paul Lyons, 2023-09-18 Most books on business strategy approach the subject from a corporate perspective covering topics such as the vision for the business the marketplace competition and differentiation However the reality is that most managers work in sub units or subsidiaries of

the business and they are not involved in corporate strategy formulation Their strategic concerns are with the positioning and future trajectory of their own units within the complex internal ecosystem in which they exist If these units are to survive and grow the middle managers responsible for them must plan their future maximise their value add and compete for resources within the internal market of their corporations Such internal markets are becoming increasingly volatile due to general economic conditions but also given the questioning of globalisation and increasing corporate concerns about the frailties of international supply chains as brought into sharp focus by the COVID 19 crisis and the war in Ukraine This book provides practical perspectives for these business unit managers and a step by step toolkit that can be used by management teams to develop a successful subsidiary strategy that acknowledges these challenges while maximising their contribution to corporate objectives It is based on the author s 30 years of experience as an executive in a complex multinational IBM organisation supplemented by academic study at Master s and PhD levels The material covered has been verified through workshops over a 3 year period with the senior leadership teams of over 30 multinational subsidiaries operating from Ireland
