The Carpet Makers:

The Carpet Makers Andreas Eschbach, 2024-06-04 Enthusiastically introduced by no less than Orson Scott Card this far future novel does credit to everyone concerned starting with its German author Booklist Since the time of pre history carpetmakers tie intricate knots to form carpets for the court of the Emperor These carpets are made from the hairs of wives and daughters they are so detailed and fragile that each carpetmaker finishes only one single carpet in his entire lifetime This art descends from father to son since the beginning of time itself But one day the empire of the God Emperor vanishes and strangers begin to arrive from the stars to follow the trace of the hair carpets What these strangers discover is beyond all belief more than anything they could have ever imagined Brought to the attention of Tor Books by Orson Scott Card this edition of The Carpet Makers contains his special introduction Eschbach s first novel will blow you away Yes it s that good Analog A considerable achievement and one that suggests the presence of a world class SF voice that we ought to know about Locus Andreas Eschbach is incontestably the shooting star of the German SF scene Heyne Science Fiction Yearbook That such a magnum opus has been allowed to languish in the shadows for ten years is damning evidence of how parochial SF publishing can be Even more astounding it was Eschbach s debut Kirkus Reviews The Carpet Makers Stoddard and Company, A.F., Ltd, 1962 The Hair Carpet Weavers Andreas Eschbach, 2020-08-06 In the dusty wastes of a far flung planet strange artisans toil Like their fathers before them they tie intricate knots out of the hair of their wives and daughters slowly forming carpets Delicate and unique each carpet requires an entire lifetime of work and all will be sold to pave the Emperor s palace Then one day the empire falls Soon strange men begin to arrive from the stars in search of the carpets true destination What they discover will astonish them Combining brilliant world building with an irresistible sense of mystery Andreas Eschbach s acclaimed space opera is a compelling meditation on faith fundamentalism and the meaning of life itself

Shaw Industries Randall L. Patton, 2002 Shaw Industries which is based in Dalton Georgia is the nation s leading textile manufacturer and the world s largest producer of carpets This history focuses on the evolution of Shaw s business strategy and its adaptations to changing economic conditions Randall L Patton chronicles Shaw s rise to dominance by drawing on corporate records industry data and interviews with Shaw employees and management including Robert E Shaw the only CEO the company has known in its more than thirty years Patton situates Shaw within both the overall context of Sunbelt economic development and the unique circumstances behind the success of the tufted carpet industry in northwest Georgia

After surveying the state of the carpet industry nationwide at the end of World War II Patton then tells the Shaw story from the boom years of 1955 1973 through the transitional decade of 1973 1982 the consolidation phase of the 1980s and early 1990s and the new economy of the mid to late 1990s Throughout Patton shows Shaw's drive has always been toward vertical integration controlling the outside forces that could affect its bottom line He tells for instance how Shaw built its own trucking fleet and became its own yarn supplier all to the company's advantage He also relates less successful ventures most notably Shaw's attempt at direct retailing The picture emerges of a company proud of its image as a steady and profitable business surviving in a competitive industry Patton traces the history of Shaw Industries from its start as a family owned operation through its growth into a multinational corporation that recently joined Warren Buffett's holding company Berkshire Hathaway The Shaw saga has much to tell us about the continuing vitality of old economy manufacturers The Carpet and Upholstery Trade Review, 1891 *America's Textile Reporter*, 1905 Threads of Empire Dorothy Armstrong, 2025-06-17 Carpet specialist Dorothy Armstrong tells the stories surrounding twelve of the world's most fascinating carpets Dorothy Armstrong's Threads of Empire is a spellbinding look at the history of the world through the stories of twelve carpets Beautiful sensuous and enigmatic great carpets follow power Emperors shahs sultans and samurai crave them as symbols of earthly domination Shamans and priests desire them to evoke the spiritual realm The world's 1% hunger after them as displays of extreme status And yet these seductive objects are made by poor and illiterate weavers using the most basic materials and crafts hedgerow plants for dyes fibers from domestic animals and the millennia old skills of interweaving warps wefts and knots In Threads of Empire Armstrong tells the histories of some of the world's most fascinating carpets exploring how these textiles came into being then were transformed as they moved across geography and time in the slipstream of the great She shows why the world's powerful were drawn to them but also asks what was happening in the weavers' lives and how they were affected by events in the world outside their tent village or workshop In its wide ranging examination of these dazzling objects from the 5th century BCE contents of the tombs of Scythian chieftains to the carpets under the boots of Stalin Roosevelt and Churchill at the 1945 Yalta Peace Conference Threads of Empire uncovers a new hitherto hidden past right beneath our feet Culture and Customs of Egypt Molefi K. Asante Ph.D., 2002-09-30 Modern Egypt blends African history and geography with Arab culture and religion With its position at the crossroads of Africa its status as a major Islamic nation and continuing interest in its ancient monuments Egypt makes for fascinating study This volume provides an accessible up to date overview of a society that greatly evolved yet retains traces of attitudes and behaviors from the days of the Pharaohs This volume's insights into everyday life sociopolitical structures and cultural institutions transcend ordinary guide books Asante a noted Africanist authoritatively presents the richness of Egypt from the Nile to the Nubian influence to Cairo congestion and carpet schools Chapters describe the land people history education tourism religion art and architecture food social customs and lifestyles literature media cinema and performing
