Mohammad, 2007-10-01 The films of Quentin Tarantino are ripe for philosophical speculation raising compelling questions about justice and ethics violence and aggression the nature of causality and the flow of time In this witty collection of articles no subject is too taboo for the writers to tackle From an aesthetic meditation on the use of spraying blood in Kill Bill to the conundrum of translation and reference in Vincent and Jules discussion about French Big Macs in Pulp Fiction Tarantino and Philosophy shies away from nothing Is The Bride a heroic figure even though she's motivated solely by revenge How is Tarantino able to create a coherent story when he jumps between past future and present The philosophers in this book take on those questions and more in essays as provocative as the films themselves **Inner freedom** Thích Nhật Từ, 2014-04-14

PREFACE One of the great social problems of our contemporary world is the large and growing population within prisons The hundreds of thousands of inmates a large percentage of them young men who committed offenses in their teen years create a financial and human burden that has reached staggering proportions In the state of California in the USA prison budgets now exceed the allotment for higher education Those of us who visit and teach in prisons appreciate the willingness of a Buddhist leader such as Ven Thich Nhat Tu to address this issue directly showing tenderness and compassion for a group that are so often treated with indifference He reminds us of how methods and policies affect the welfare of those who have violated concrete prohibitions of communities As a Buddhist teacher he approaches this group with reference to individual conduct and uses the counsel and advice based on precepts of his tradition In the teaching he has used gentle and sensitive instruction aimed at the development of qualities and capacities latent in the individual listeners abilities that can help them face their situation Thus his goal has been to assist the inmates by giving help that will assist them in mastering some of the difficulties that are involved in prison life providing them with new knowledge to use as a part of their mental life It is difficult to fully comprehend the impact of his presence when he visits the facilities For many inmates after a long period of being away from family and friends there are no visitors no letters and no attention from loving and caring people When Ven Thich Nhat Tu enters to talk with them and spend time teaching and listening he is seen as an individual but also in an iconic fashion as the very embodiment of morality and compassion His message gives solace there can be an Inner Freedom even in the face of a daily life that is restricted For many of the inmates the hardest task is to live with the guilt they feel over their actions actions that caused harm and sorrow to others It is at this basic level of experience that the teachings provide the

necessary quality for remorse to give the power to receive hold and absorb understanding of reality and the possibility of inner transformation It is a message that can have application to all of us as we face the problems of our past and present life

The Root of All Evil? Lori J. Underwood, 2013 There is a great deal of popular belief in the connection between religious extremism and terrorism There are also numerous statistical analyses that reject that connection Upon a deeper analysis however both of these approaches are oversimplifications To adequately answer the question of whether there is a significant causal relationship between organizational religions and terrorism it is necessary to take a closer and more critical look at the ideologies and practices of both religious practitioners and terrorists It is important to focus on the causality of the relationship because if there is no causal relationship between religion and terrorism then removing adherence to religion will do nothing to ameliorate the problem of terrorism The Root of All Evil Religious Perspectives on Terrorism conducts this kind of analysis
