related to depreciation but is an empirical investigation on the sources of economic fluctuations Again the theme does not appear to be fresh Still the academic consensus is far from being unanimous on such an old question The approach taken in this last essay follows from a note by Olivier Blanchard in his introductory Macroeconomics class notes It consists in identifying the sources of fluctuations at a disaggregated level and investigate which of the different sources generate comovements that sum up to aggregate fluctuations The main results are the shocks that aggregate into the aggregate source of fluctuations are neither technological nor restructuring shocks Essays in the Business Cycle Kwanghee Nam,1995 The Business Cycle in a Changing World Arthur Frank Burns,1969
