Morris, 2019-06-26 Originally published in 1984 *The Image of the Middle Ages in Romantic and Victorian Literature* looks at the impact of medievalism in the 18th and 19th centuries and the importance of post Enlightenment literary religious medievalism The book suggests that religious medievalism was not a

superficial cultural phenomenon and that the romantic spirit with which it was chronologically connected was intimately associated with the metaphysical. The book suggests that this belief gave birth to the metaphysical yearning and cultural expression of the eighteenth and nineteenth century. The book seeks to clarify the post Enlightenment relationship between aesthetic culture and aesthetic religion, romanticism, medievalism and religious trends. Nineteenth-Century European Catholicism Eric C. Hansen, 2017-09-07. Included in this bibliography originally published in 1989 are books, pamphlets, dissertations and articles from periodicals and collections published for the most part since 1900 which present Catholic development in the nineteenth century as its major theme. Each entry is annotated with the major idea or theme of the work as expressed by its author or editor. This title will be of interest to students of European History and Religious Studies.

Religion in Victorian Britain, Vol. IV Gerald Parsons, 1988. During the late 1980s and early 1990s the city of San Francisco waged a war against the homeless. Over 1 000 arrests and citations were handed out by the police to activists for simply distributing free food in public parks. Why would a liberal city arrest activists helping the homeless? In exploring this question the book treats the conflict between the city and activists as a unique opportunity to examine the contested nature of homelessness and public space while developing an anarchist alternative to liberal urban politics that is rooted in mutual aid, solidarity and anti capitalism. In addition to exploring theoretical and political issues related to gentrification, broken windows, policing and anti homeless laws, this book provides activists, students and scholars examples of how anarchist homeless activists in San Francisco resisted these processes. This book is relevant to United Nations Sustainable Development Goal 2 Zero hunger.

Montesquieu's Science of Politics Charles de Secondat, baron de Montesquieu, 2001. In what constitutes the only English language collection of essays ever dedicated to the analysis of Montesquieu's contributions to political science, the contributors review some of the most vexing controversies that have arisen in the interpretation of Montesquieu's thought. By paying careful attention to the historical, political and philosophical contexts of Montesquieu's ideas, the contributors provide fresh readings of *The Spirit of Laws*, clarify the goals and ambitions of its author and point out the pertinence of his thinking to the problems of our world today.

In the Mirror of the Third World Sandra Halperin, 2018-09-05. In Marx's familiar dictum, the more developed country shows the less developed an image of its own future. Turning this idea upside down, *In the Mirror of the Third World* looks to the contemporary Third World for a reflection of European history. The resulting view challenges standard accounts of European social, economic and political development. Sandra Halperin's analysis of the European experience begins where studies of Third World development often start: considering the legacies of colonial domination. Europe also had a colonial past, she reminds us, and the states of Europe like those of today's Third World were the product of colonialism and imperialism. From this starting point, Halperin traces features characteristic of Third World development through the history of European capitalism: enclave economies oriented to foreign markets, weak middle classes, alliances among the state, traditional landowning elites and new

industrial classes unstable and partial democracy sharp inequalities and increasing poverty all as much a part of European society on the eve of World War I as they are of developing countries today Halperin also emphasizes the emergence of a militant literal religion in Europe and its critical role in the class struggles of the nineteenth century **War and Social Change in Modern Europe** Sandra Halperin, 2004 This book focuses on the interrelationship of social forces industrial expansion and conflict in Europe between 1789 and 1945 **Man on His Own** Bruce Mansfield, 1992-01-01 In the twentieth century Mansfield concludes more modern ways of studying Erasmus have emerged notably through seeing him more precisely in his own historical context **Rome in Australia: The Papacy and Conflict in the Australian Catholic Missions, 1834-1884 (set 2 volumes)** Christopher Dowd, 2008-07-30 The founding of the Catholic missions in Australia coincided with the defining drift of power and prestige within the nineteenth century Church This was a period of chronic dissension among Australia's Catholic communities powerfully drawn by the ultramontane impulse and political manoeuvring to refer their problems to the Pope Roman bureaucratic control exercised through the Sacred Congregation de Propaganda Fide was the single most important factor in the resolution of these problems and consequently in the determinative shaping of the colonial Australian Church Based on extensive archival research this study explores issues of process politics and personality in the formulation of papal policy towards a part of the world that could not be more distant from Rome That They be One Michael Joseph Schuck, 1991 The social teaching of the Roman Catholic Church has aroused public interest in recent years with the increased involvement of North American bishops in matters of civic morality with the growth of liberation theology in Central and South America and with the ongoing political and economic statements of Pope John Paul II A vital ingredient of Roman Catholic social teaching is the papal encyclical literature Debate grows however over exactly what the papal letters teach Noteworthy encyclical commentaries exist but none has attempted a comprehensive historical analysis of the complete content and overall coherence of Roman Catholic encyclical social teaching This book appearing in advance of the 1991 centennial of Rerum novarum provides the kind of analysis that concerned Roman Catholics public officials social ethicists theologians and students are looking for a textually inclusive and topically broad gauged study of Catholic social teaching in its historical development with a forthright assessment of the teaching's contradictions and consistencies **Saints and Sinners** Eamon Duffy, 2015-01-13 The latest edition of the most comprehensive single volume history of the popes updated to cover the election of Pope Francis Sunday Telegraph This engrossing book from a professor of the history of Christianity at Cambridge encompasses the extraordinary story of the papacy from its beginnings to the present day as empires rose and fell around it This new edition covers the unprecedented resignation of Benedict XVI and the historic election of the first Argentinian pope Praise for the earlier editions Duffy enlivens the long march through church history with anecdotes that bring the different pontiffs to life Saints and Sinners is a remarkable achievement The Times London A distinguished text offering plenty of historical facts and sobering valuable judgments The New York Times Book

Review Will fascinate anyone wishing to better understand the history of the Catholic Church and the forces that have shaped the role of the papacy Christian Century *In the Context of Eternity* David J. Arnold, 2017-08-24 *In the Context of Eternity* is a lively and readable one volume history of the Christian Church which challenges the view that ancient history came to an end in the fifth century and that nothing of significance then happened until the Renaissance It explains how an extraordinary intermingling of the Roman Empire Christianity and Barbarism produced the most dynamic society the world has ever known and how the modern world emerged from the interaction of Christianity and Barbarism on the ruins of Rome There is a prologue explaining the background to the world out of which Christianity developed and an epilogue commenting on the state of the Christian Church at the beginning of the third millennium The period of two thousand years in between is divided into six sections each of which is given the same number of pages and each of which is divided into three chapters Thus the period from the 330s to the 660s on Christendom and the Roman Empire is given the same attention as the period on The Era of Reform from the 1330s to the 1660s Chapter 18 is an account of the development of Christianity in the United States of America **Saints & Sinners** Eamon Duffy, 2006-01-01 Pavernes historie indtil idag *Priests, Prelates and People* Nicholas Atkin, Frank Tallett, 2003-09-26 The Catholic Church has always been a major player in European and world history Whether it has enjoyed a religious dominance or existed as a minority religion Catholicism has never been diverted from political life *Priests Prelates and People* records the Church struggling to adapt to the new political landscape ushered in by the French Revolution and shows how the formation of nation states and identities was both helped and hindered by the Catholic establishment It portrays the Vatican increasingly out of step in the wake of world war Cold War and the massive expansion of the developing world with its problems of population growth and under development **Brokers of Culture** Gerald McKevitt, 2007 *Brokers of Culture* analyzes how Italian Jesuit missionary migrants attempted to integrate a heterogeneous western population Native Americans Hispanics European immigrants and native born Americans into a global religious community while simultaneously facilitating those groups entry into American society *The Encyclopedia of Christianity* Erwin Fahlbusch, Geoffrey William Bromiley, 1999 Containing more than 300 articles covering the alphabetical entries P Sh this book also includes articles on significant topics ranging from Paul political theology and the Qur'an to religious liberty salvation history and scholasticism
