Sophocles' Antigone, 2011-04-18 Sophocles Antigone comes alive in this new translation that will be useful for academic study and stage production Diane Rayor's accurate yet accessible translation reflects the play's inherent theatricality She provides an analytical introduction and comprehensive notes and the edition includes an essay by director Karen Libman Antigone begins after Oedipus and Jocasta's sons have killed each other in battle over the kingship The new king Kreon decrees that the brother who attacked with a foreign army remain unburied and promises death to anyone who defies him The play centers on Antigone's refusal to obey Kreon's law and Kreon's refusal to allow her brother's burial Each acts on principle colored by gender personality and family history Antigone poses a conflict between passionate characters whose extreme stances leave no room for compromise The highly charged struggle between the individual and the state has powerful implications for ethical and political situations today *On Belonging and Not Belonging* Mary Jacobus, 2024-11-26 A look at how ideas of translation migration and displacement are embedded in the works of prominent artists from Ovid to Tacita Dean *On Belonging and Not Belonging* provides a sophisticated exploration of how themes of translation migration and displacement shape an astonishing range of artistic works From the possibilities and limitations of translation addressed by Jhumpa Lahiri and David Malouf to the effects of shifting borders in the writings of Eugenio Montale W G Sebald Colm Tóibín and many others esteemed literary critic Mary Jacobus looks at the ways novelists poets photographers and filmmakers revise narratives of language identity and exile Jacobus's attentive readings of texts and images seek to answer the question What does it mean to identify as or with an outsider Walls and border crossings nomadic wanderings and Alpine walking the

urge to travel and the yearning for home Jacobus braids together such threads in disparate times and geographies She plumbs the experiences of Ovid in exile Frankenstein's outcast Being Elizabeth Bishop in Nova Scotia and Brazil Walter Benjamin's Berlin childhood and Sophocles's Antigone in the wilderness Throughout Jacobus trains her eye on issues of transformation and translocation the traumas of partings journeys and returns and confrontations with memory and the past Focusing on human conditions both modern and timeless On Belonging and Not Belonging offers a unique consideration of inclusion and exclusion in our world

Seamus Heaney and the Classics S. J. Harrison, Fiona Macintosh, Helen Eastman, 2019 The death in 2013 of Seamus Heaney is an appropriate point to honour the great Irish poet's major contribution to classical reception in modern poetry This is the first volume to be wholly dedicated to this perspective on Heaney's work focusing primarily on his fascination with Greek drama and myth and his interest in Latin poetry

Memories of the Classical Underworld in Irish and Caribbean Literature Madeleine Scherer, 2021-09-20 Classical Memories is an intervention into the field of adaptation studies taking the example of classical reception to show that adaptation is a process that can be driven by and produce intertextual memories I see classical memories as a memory driven type of adaptation that draws on and reproduces schematic and otherwise decontextualised conceptions of antiquity and its cultural exports in broadly speaking the twentieth and twenty first centuries These memory driven adaptations differ often in significant ways from more traditional adaptations that seek to either continue or deconstruct a long running tradition that can be traced back to antiquity as well as its canonical points of reception in later ages When investigating such a popular and widespread set of narratives characters and images like those that remain of Graeco Roman antiquity terms like adaptation and reception could and should be nuanced further to allow us to understand the complex interactions between modern works and classical antiquity in more detail particularly when it pertains to postcolonial or post digital classical reception In Classical Memories I propose that understanding certain types of adaptations as intertextual memories allows us to do just that

Key Features Includes sections on biography historical cultural and political contexts poetry and other genres as well as a concluding section on primary works and secondary criticism Pays special attention to the marriage of form and content in the poetry and how they work together to express subtle shades of meaning Offers close readings of Heaney's canonical poems throughout his career including the early seminal poems such as Digging the bog poems and his many elegies such as Casualty Station Island and Clearances Draws on drafts of the poems and prose at the Heaney archives at Emory University and the National Library of Ireland

New Playwriting at Shakespeare's Globe Vera Cantoni, 2017-12-14 Shakespeare's Globe Theatre is recognised worldwide as both a monument to and significant producer of the dramatic art of Shakespeare and his contemporaries But it has established a reputation too for commissioning innovative and distinctive new plays that respond to the unique characteristics and identity of the theatre This is the first book to focus on the new drama commissioned and produced at the Globe to analyse how the specific qualities of the venue have shaped those works and to assess the influences of both past and present in the work staged The author argues that far from being simply a monument to the past the reconstructed theatre fosters creativity in the present creativity that must respond to the theatre's characteristic architecture the complex set of cultural references it carries and the heterogeneous audience it attracts Just like the reconstructed wooden O the Globe's new plays highlight the relevance of the past for the present and give the spectators a prominent position In examining the score of new plays it has produced since 1995 the author considers how they illuminate issues of staging space spectators identity and history issues that are key to an understanding of much contemporary theatre Howard Brenton's *In Extremis* and Anne Boleyn receive detailed consideration as examples of richly productive connection between the playwright's creativity and the theatre's potential For readers interested in new writing for the stage and in the

work of one of London's totemic theatre spaces New Playwriting at Shakespeare's Globe offers a fascinating study of the fruitful influences of both past and present in today's theatre Seamus Heaney's American Odyssey Edward J.

O'Shea,2022-12-30 Seamus Heaney's American Odyssey describes with a new archive of correspondence interviews and working drafts the some 40 years that Seamus Heaney spent in the United States as a teacher lecturer friend and colleague and as an active poet on the reading circuit It is anchored by Heaney's appointments at Berkeley and Harvard but it also follows Heaney's readings on the road at three important points in his career It argues that Heaney was initially receptive to American poetry and culture while his career was still plastic but as he developed more assurance and fame he became much more critical of America as a superpower especially in the military reaction to 9 11 This study emphasizes the heard Heaney as much as the writerly Heaney by listening in on key poetry readings at different times and to recorded but unpublished lectures on American and British poets at Harvard It includes accounts by his creative writing students aspiring poets who testify to his mentoring as well as modeling for them how one can be a poet in the world as he was most strikingly

Antigone Sophocles,2011-01 The curse placed on Oedipus lingers and haunts a younger generation in this brilliant translation of Sophocles classic drama The daughter of Oedipus and Jocasta Antigone is the subject of a popular story in which she attempts to secure a respectable burial for her brother Polyneices even though he was a traitor to Thebes and the law forbids even mourning for him on pain of death In the oldest version of the story the funeral of Polyneices takes place during Oedipus's reign in Thebes However in the best known versions Sophocles's tragedies Oedipus at Colonus and Antigone it occurs in the years after Oedipus's banishment and death and Antigone has to struggle against Creon Sophocles Antigone ends in disaster with Antigone hanging herself after being walled up and Creon's son Haemon or Haimon who loved Antigone kills himself after finding her body An unconventional heroine Antigone pits her beliefs against the King of Thebes in a bloody test of wills that leaves few unharmed Emotions fly as she challenges the king for the right to bury her own brother Determined but doomed Antigone shows her inner strength throughout the play Antigone raises issues of law and morality that are just as relevant today as they were more than two thousand years ago Whether this is your first reading or your twentieth Antigone will move you as few pieces of literature can **The Cambridge Companion to Seamus Heaney**

Politics of Religion/Religions of Politics Alistair Welchman,2014-10-20 The liberal enlightenment as well as the more radical left have both traditionally opposed religion as a reactionary force in politics a view culminating in an identification of the politics of religion as fundamentalist theocracy But recently a number of thinkers Agamben Badiou Tabues and in particular Simon Critchley have begun to explore a more productive engagement of the religious and the

political in which religion features as a possible or even necessary form of human emancipation The papers in this collection deriving from a workshop held on and with Simon Critchley at the University of Texas at San Antonio in February 2010 take up the ways in which religion's encounter with politics transforms not only politics but also religion itself molding it into various religions of politics including not just heretical religious metaphysics but also what Critchley describes as non metaphysical religion the faith of the faithless Starting from Critchley's own genealogy of Pauline faith the articles in this collection explore and defend some of the religions of politics and their implications Costica Bradatan teases out the implications of Critchley's substitution of humor for tragedy as the vehicle for the minimal self distancing required for any politics Jill Stauffer compares Critchley's non metaphysical religiosity with Charles Taylor's account of Christianity Alistair Welchman unpacks the political theology of the border in terms of god's timeless act of creation Anne O Byrne explores the subtle dialectic between mores and morality in Rousseau's political ethics Roland Champagne sees a kind non metaphysical religion in Arendt's category of the political pariah Davide Panagia presents Critchley's ethics of exposure as the basis for a non metaphysical political bond Philip Quadrio wonders about the political ramifications of Critchley's own mystical anarchism and Tina Chanter re reads the primal site in the Western tradition at which the political and the religious intersect the Antigone story side stepping philosophical interpretations of the story dominated by Hegel's reading by means of a series of post colonial re imaginings of the play The collection concludes with an interview with Simon Critchley taking up the themes of the workshop in the light of more recent political events the Arab Spring and the rise and fall of the Occupy movement
