The Cambridge Ancient History John Boardman, D. M. Lewis, 1970 Volume VI of the new edition of *The Cambridge Ancient History* begins with Sparta attempting to consolidate its leadership of mainland Greece and ends with the death of Alexander the Great after he had conquered the Persian Empire and marched far into India It is correspondingly wide ranging in its treatment of the politics and economy not only of old Greece but of the Near East and the western Mediterranean The century also saw the continued development of Classical Greek art and the moulding of Greek prose as an uniquely flexible means of expression The formation of the great philosophical schools assured to Athens in her political decline a long future as a cultural centre and established patterns of thought which dominated western civilization for two thousand years

The Cambridge Ancient History John Boardman, 1984-07-19 The publication of the Plates Volume to

accompany the *Cambridge Ancient History* Volume III and that for Volume II part I inaugurates a new style and format for these books The illustrations are now presented with a descriptive text and commentary so that each chapter is a self contained account of matters of archaeological and art historical interest relevant to the history of a period and place The order of illustration is not always that of the chapters in the text volumes but is determined by the material illustrated and the principal subjects it suggests The intention is thus both to complement the text volumes and to provide an independent commentary on the material evidence of antiquity The Plates for Volume III covers the prehistory of the Balkans the Near Eastern kingdoms and Egypt the rise of the Greek States in the period of colonisation and of their Archaic art and culture down to the later part of the sixth century BC The narrative draws upon the evidence of topography excavation and art history to demonstrate how these studies have succeeded in both illustrating and supplementing our knowledge of antiquity won mainly from written sources
