

THE CASE FOR LEFT WING NATIONAL- ISM

Vision matters even more than realism
—I doubt if anything more telling on
the spirit of this coming moment will
be published than the essays here,
from a great thinker and activist.

The Case For Left Wing Nationalism Viewpoints:

Caledonian Dreaming Gerry Hassan, 2014-04-05 A different Scotland is possible Caledonian Dreaming The Quest for a Different Scotland offers a penetrating and original way forward for Scotland beyond the current independence debate It identifies the myths of modern Scotland describes what they say and why they need to be seen as myths Hassan argues that Scotland is already changing as traditional institutions and power decline and new forces emerge He outlines a prospectus for Scotland to become more democratic and to embrace radical and far reaching change REVIEWS An intelligent brave and much needed contribution to the debate around the referendum in Scotland This along with other great contributions like Lesley Riddoch's Blossom are hugely important to the general discourse and much needed research into the country we have been the country we now are and the country we could become ELAINE C SMITH actress and campaigner This is a remarkable book balanced and brave insightful and incisive intelligently blending the personal and the political Whatever the referendum result if Scotland really wants to be the best place in the world to grow up Gerry Hassan's suggestions for a new democracy would be an excellent starting point SUE PALMER author Toxic Childhood Gerry Hassan sets out to challenge the lazy presumptions that are around about Scotland and its future He invites the reader to think and think again STUART COSGROVE broadcaster Understanding that the old stories we tell ourselves influence the new stories we go on to write Gerry Hassan has crafted a brilliant book unpacking the political narratives that have shaped modern Scotland in order to create a space to imagine anew A book about Scotland important to anyone anywhere dreaming a new world STEPHEN DUNCOMBE author Dream Re imagining Progressive Politics in an Age of Fantasy The independence referendum changes what is possible regardless of its outcome It forces people in Scotland to confront far more directly the nature of their country rather than continue to accept the myths that build up when there is no option to go it alone In Caledonia Dreaming Gerry Hassan skillfully traverses these key myths to show that if Scotland were to gain independence it would have to confront internal realities that were hidden when Westminster could be blamed for so much If the Scots prove the bookies wrong if events over the summer of 2014 turn so that independence is achieved then this book demonstrates that the new Scotland will be further from many possible idealised European utopias than many nationalists had ever imagined It is a key contribution to the debate no matter where you stand DANNY DORLING author Injustice Why Social Justice Persists Professor of Human Geography Oxford University With one bound Scotland could be free How tempting that looks to the progressive minded on both sides of the border If only it were that easy Gerry Hassan drills down to deeper reasons why the many dysfunctions of British democracy could dog an independent Scotland too With a non partisan but beady eye on society both sides of the border in this clever book here are tougher questions to consider than a mere Yes No POLLY TOYNBEE writer and journalist The Guardian Harry Anastasiou, 2006-08-01 Harry Anastasiou peace scholar practitioner and educator takes the struggle for peace and reconciliation in his native Cyprus as a model for understanding the belligerent

nature of ethno centric nationalism everywhere From the vantage point of Peace Studies and Conflict Resolution theory and practice Anastasiou s analysis offers uncharted new insights and a fresh perspective on the protracted nature of the Cyprus conflict the causes of the long rivalry between Greece and Turkey and the tangible prospects for peace within the conciliatory framework of the European Union Drawing from a variety of academic disciplines and synthesizing a broad array of historical political and cultural phenomena Anastasiou s work presents an understanding of the Cyprus conflict that is both challenging and indispensable for the quest for peace in the Eastern Mediterranean region In its non partisan and highly interdisciplinary approach the work marks a unique and significant contribution to scholarship in the field of Peace and Conflict Studies and the Cyprus problem Its clear and methodical analysis makes the complex problems it addresses academically intelligible and pedagogically accessible to university students and interested citizens Anastasiou s work is an engaging encounter with the phenomenon of ethno centric nationalism as well as a provocative educational venture in inter ethnic peace and reconciliation

Why Not? Jamie Maxwell, 2014-08-18 Is Scottish independence incompatible with Labour values Are Labour values being realised within the Union How much really divides Yes campaigners from Labour voters Why Not Scotland Labour and Independence is a passionate and often personal appeal to Labour voters and other progressive Scots to consider the social economic and political gains that could be won with Scottish self government Bringing together a range of diverse voices some from within the Labour Party some from within the SNP some from the non aligned Left it presents the social justice case for a Yes vote and argues that independence offers the clearest route forward for socialist and centre left Scotland Urgent original and provocative Why Not is a vital contribution to the independence debate and essential reading for all Scots

Scotland's Referendum David Torrance, 2014-06-19 On 18 September 2014 everyone in Scotland aged 16 or over will be asked the question Should Scotland Be An Independent Country As the referendum approaches the debates over whether or not Scotland should be an independent country are becoming more heated This guide produced by respected Scottish journalists and authors Jamie Maxwell and David Torrance covers everything you need to know in advance of deciding which way to vote Maxwell and Torrance summarise the main arguments for and against before delving into the central issues at the heart of the debate including economics welfare and pensions defence and foreign affairs and culture and national identity They outline the way that Scotland is currently governed and review where the parties stand on the debate before concluding with speculative chapters on what happens after the vote whether YES or NO The referendum on 18 September 2014 is the most significant democratic event in Scotland s history Get engaged Be informed Whatever you do don t NOT vote

Political Psychology Perspectives on Populism Gilda Sensales, 2024-04-12 This book explores the different forms of populism in European countries Starting from a theoretical point of view the authors outline the various psychosocial precursors of populisms that have emerged from empirical investigations Using both mainstream and critical perspectives the book shows how the field has driven multiple research programmes and methodologies The authors draw on

questionnaires and political communication via social media to analyse the opinions attitudes and representations of laypeople and populist leaders The volume is aimed at researchers students and readers with expertise on the subject It collects contributions from scholars of social psychology proposing an innovative reading of the social cognitive motivational and emotional processes that can fuel populism Perspectives on Nationalism and War J. Comaroff,P. Stern,2013-09-13 This volume considers recent studies that move beyond primordialism and its antithesis social constructivism to search for new insights to illuminate the nature of nationalism and its link to war The authors also explore the role of shared interests the history of peoples elites and states political imperatives propaganda and psychological predispositions This combination provides a brilliant new look at nationalism and war one that delves deeply into ethnic identity and the willingness of people to fight and die for nation states **The Broken Olive Branch: Nationalism, Ethnic Conflict, and the Quest for Peace in Cyprus** Harry Anastasiou,2008-12-05 At the forefront of its field The Broken Olive Branch examines the dynamics of ethnonationalism in Cyprus a country torn in two by decades long struggles fueled by ethnic rivalry Harry Anastasiou s analysis of Cyprus s historic conflict through the lens of conflict analysis and resolution traces the division of Greek and Turkish Cypriots since the country s independence from British rule and mediation in 1960 In the first of two volumes Anastasiou offers a detailed portrait of Cyprus s dual nationalisms identifying the ways in which the ideologies undermined the relations between Greek and Turkish Cypriots The author demonstrates how the ethnic rivalry was largely engineered by the leaders of each community Taking a multilevel approach he maps out the changes in ethnonationalism over time tracing the impact of political leadership and international relations Masochistic Nationalism Göran Adamson,2021-03-15 This book examines the nature of the conflict between right wing populism and multiculturalism the West s defining conflict in the modern age Drawing on a plethora of evidence from politics and culture in the West it argues that these two positions while antagonistic on the surface are in fact similar nationalism and multiculturalism are two names for one idea the difference between them being simply a matter of geography both outlooks have their roots in romanticism sentimentalism arrogance and a racist outlook Rather than defend either approach this volume urges us to consider the importance of roots and argues for greater consideration of what classical liberalism socialism and feminism can do to break this impasse in our political thinking with a concern for equality and concern for solidarity regardless of cultural practice As such it will appeal to social and political theorists with interests in political sociology and culture *Minorities and Populism – Critical Perspectives from South Asia and Europe* Volker Kaul,Ananya Vajpeyi,2020-02-28 This volume assembles renowned scholars to address for the first time the relationship between minorities and populism in South Asia and Europe from a critical perspective Despite the very different and to some extent opposite historical and political trajectories there is today a convergence on nationalist affirmation and on majoritarian politics between South Asia and Europe In India the Hindu majority rebels against wide ranging minority rights anchored in the Constitution In Europe the refugee crisis and Islamic radicalization bring to the

forefront the postcolonial legacy Despite all rhetoric there are obvious dangers of majoritarianism Populist parties are divisive partisan disregard minority rights engage in lynching social division stigmatization and exclusion turning minorities into second class citizens There is a profound structural connection between minorities and the current rise of populism in India and Europe But there remains a deep perplexity and also anxiety Does the presence of minorities necessarily have to trigger majoritarian policies Are there no solutions to this dilemma Many observers considered multicultural policies and affirmative action programs in India as a possible model for Europe to adopt in order to achieve greater integration But eventually they seem to have failed Why so Are multiculturalism and the recognition of differences still options today On the other hand most scholars in India typically reject the European model of liberal democracy and secularism as impracticable in India and locate the reason for the current malaise in the west But is liberal democracy really so bad in dealing with pluralism This volume collecting a selection of the Reset DOC Venice Padua Delhi dialogue series is going to answer two fundamental questions First what precisely is the nexus between minorities and populism in South Asia and Europe Starting from those case studies the authors will also draw some general theoretical inferences about the nature of populism Secondly given the dangers of populism for minorities the volume will look for the most adequate and feasible solutions

The Case for Scottish Independence Ben Jackson, 2020-07-09 Scottish nationalism is a powerful movement in contemporary politics yet the goal of Scottish independence emerged surprisingly recently into public debate The origins of Scottish nationalism lie not in the medieval battles for Scottish statehood the Acts of Union the Scottish Enlightenment or any other traditional historical milestone Instead an influential separatist Scottish nationalism began to take shape only in the 1970s and achieved its present ideological maturity in the course of the 1980s and 1990s The nationalism that emerged from this testing period of Scottish history was unusual in that it demanded independence not to defend a threatened ancestral culture but as the most effective way to promote the agenda of the left This accessible and engaging account of the political thought of Scottish nationalism explores how the arguments for Scottish independence were crafted over some fifty years by intellectuals politicians and activists and why these ideas had such a seismic impact on Scottish and British politics in the 2014 independence referendum

Understanding Terrorism Gus Martin, 2020-07-17 Understanding Terrorism Challenges Perspectives and Issues offers a comprehensive interdisciplinary exploration of domestic and international terrorism that helps students develop the knowledge and skills needed to critically assess the underlying causes of modern terrorist violence The Seventh Edition includes new or expanded discussions of critical topics in terrorism such as the evolution of right wing extremism in Western countries as well as analysis of recent events and updated terrorist tactics weapons and methods Included with this title The password protected Instructor Resource Site formally known as SAGE Edge offers access to all text specific resources including a test bank and editable chapter specific PowerPoint slides

Perspectives on International Relations Henry R. Nau, 2019-12-04 Nau clarifies that which is complicated thereby allowing students to

make better sense of their world and to become better global citizens Stewart Dippel University of the Ozarks Henry R Nau's best selling book *Perspectives on International Relations* is admired for its even handed presentation of realism liberalism constructivism and critical theory and for integrating these perspectives in every chapter Students are able to explore the ways these different perspectives shape our understanding of the root causes of historical events and current controversies and then think critically about the world's most urgent issues The new Seventh Edition includes updates on Brexit the rise of nationalism the escalation of terrorism the use of social media in political protests around the world and continuing developments in North Korea Syria Iran China and Russia A Complete Teaching Learning Package LMS Cartridge formally known as SAGE Coursepacks Import this title's instructor resources into your school's learning management system LMS and save time Don't use an LMS You can still access all of the same online resources for this title via the password protected Instructor Resource Site SAGE course outcomes Measure Results Track Success Outlined in your text and mapped to chapter learning objectives SAGE course outcomes are crafted with specific course outcomes in mind and vetted by advisors in the field See how SAGE course outcomes tie in with this book's chapter level objectives

The Rise of Hungarian Populism Attila Antal, 2019-10-09 This book offers a deep historical and theoretical investigation into how this authoritarian populist regime has evolved Backlash from globalization in the 21st century dissatisfaction with the European Union and international fiscal institutions have created a situation in which Orbán's regime is able to thrive

The Case for Left Wing Nationalism Stephen Maxwell, 2013-10-31 Spanning four politically and socially tumultuous decades Stephen Maxwell's writings explore the origins and development of the modern Scottish Nationalist movement As an instrumental member of the SNP and a life long socialist Maxwell's work provides an engaging contemporary insight into the debate over Scottish independence setting out a clear ideological and practical arguments for a socially just Scotland The Case for Left Wing Nationalism Maxwell's seminal 1981 pamphlet considers the historical and cultural roots of Scottish national identity and stresses the importance of a realistic understanding of the past as the basis of a more prosperous independent future It concludes with Hugh MacDiarmid's prescription for a Scottish renaissance Not Traditions Precedents

Culture and Crisis Nina Witoszek, Lars Trägårdh, 2002 It is often argued that Germany and Scandinavia stand at two opposite ends of a spectrum with regard to their response to social economic disruptions and cultural challenges Though in many respects they have a shared cultural inheritance it is nevertheless the case that they mobilize different mythologies and different modes of coping when faced with breakdown and disorder The authors argue that it is at these critical junctures points of crisis and innovation in the life of communities that the tradition and identity of national and local communities are formed polarized and revalued it is here that social change takes a particular direction

Decolonial Politics in European Peripheries Sanja S. Petkovska, 2023-12-12 *Decolonial Politics in European Peripheries Redefining Progressiveness Coloniality and Transition Efforts* is a timely contribution to the project of theorizing Europe through decolonial perspectives on the Left as the European and global crisis

has prompted new reflections on what it means to sit still at the European peripheries The book explores how the joint scholarship efforts of postcolonial and postsocialist scholars might come up with better grounded and more detailed theoretical and methodological insights into the process of globalization and subsequent peripheralization if framed under a progressive and leftist perspective The authors many from the South East Europe region use a variety of analytical lenses to demonstrate how the nexus of postcolonial postsocialist area studies and progressive developmental political thought could inspire changes in the future which are in dissonance with neoliberal and neoconservative capitalism As the side effects of global capitalism continue to accelerate scholars and activists in the postsocialist periphery are increasingly turning to the concept of decoloniality in the hope that it might offer more options on how to begin to build up their framework This book offers numerous examples of how decolonial theory can be applied to activist work in the fight against austerity and neoliberalization as well as examples of how decolonial critique can be mobilized to contest processes of Europeanization and Euro Atlantic integration This book will intrigue students and scholars of critical social scholarship in general as well as postsocialism and postcolonialism critiques of right populism and the rise of white nationalism in Europe and those studying the regions of South Eastern Europe and Eurasia more generally It will also interest activists organizers decision makers policy analysts and leftists both in the region and internationally

International Viewpoint ,2004-02 **Reassessing the Transnational Turn** Constance Bantman,Bert Altena,2014-12-05 This edited volume reassesses the ongoing transnational turn in anarchist and syndicalist studies a field where the interest in cross border connections has generated much innovative literature in the last decade It presents and extends up to date research into several dynamic historiographic fields and especially the history of the anarchist and syndicalist movements and the notions of transnational militancy and informal political networks Whilst restating the relevance of transnational approaches especially in connection with the concepts of personal networks and mediators the book underlines the importance of other scales of analysis in capturing the complexities of anarchist militancy due to both their centrality as a theme of reflection for militants and their role as a level of organization Especially crucial is the national level which is often overlooked due to the internationalism which was so central to anarchist ideology And yet as several chapters highlight anarchist discourses on the nation as opposed to the state patriotism and even race were more nuanced than is usually assumed The local and individual levels are also shown to be essential in anarchist militancy

The Rise of Nationalist Populism Daniel Rueda,2024-10-03 The Rise of Nationalist Populism explores the intersection between populism and nationalism conducted through the discursive analysis of three Populist Radical Right parties that have gained prominence during the 2010s Rassemblement National France Lega Italy and Vox Spain Due to its rise in Europe the United States and further afield there is a growing interest in right wing populism an exclusionary and illiberal form of populism that has been able to attain success in several countries This book contributes to the analysis of how populism understood as a way of constructing the political is shaped by the ideologies that permeate it

examines how a certain form of nationalism is shaped by populist dynamics that is by a certain form of identity building The book analyses the intersection between nationalism and populism in right wing populist parties by using a discourse analysis methodology based on Ernesto Laclau s works thus conducting an examination similar to the ones presented by the Essex School of Discourse Analysis The empirical analysis focuses on party literature and carefully selected candidate speeches at a national level for its three case studies as well as providing an overarching comparison The book shows how the economic crisis and the irruption of issues related to sovereignty and national identity arising in France Italy and Spain paved the way for the emergence of their respective right wing populist forces The book will appeal to researchers and students of political science especially those with an interest in populism discourse analysis identity and the far right Populism in Power Giorgos Venizelos, 2023-05-09 Shifting attention away from policy achievements and effects on democracy this book focuses on the charismatic function of populist discourse comprising antagonistic narratives transgressive style and appeals to the common people The book puts forward an integrative approach that brings together discourse analysis analysis of digital media in depth interviews and ethnographic methods and places into comparative perspective the cases of SYRIZA in Greece and Donald Trump in the United States Theorising populism through the lens of collective identification Venizelos places the rhetorical and emotional dynamics of populist performativity at the core of the analysis offering a rigorous yet flexible conceptualisation of populism in power Against theoretical expectations findings suggest that both SYRIZA and Trump retained to different degrees their populist character in power although their style and vision differed vastly This book urges researchers journalists and politicians to adopt a reflexive approach to analysing the political implications of populism for politics polity and society and to challenge the normatively charged definitions that are uncritically reproduced in the public sphere It will appeal to researchers of political theory populism comparative politics sociologists and ethnographers

Whispering the Strategies of Language: An Psychological Quest through **The Case For Left Wing Nationalism Viewpoints**

In a digitally-driven world where monitors reign supreme and instant interaction drowns out the subtleties of language, the profound secrets and emotional subtleties concealed within words frequently go unheard. However, situated within the pages of **The Case For Left Wing Nationalism Viewpoints** a fascinating literary treasure blinking with natural emotions, lies an exceptional journey waiting to be undertaken. Written by an experienced wordsmith, this charming opus attracts visitors on an introspective journey, softly unraveling the veiled truths and profound influence resonating within the material of each and every word. Within the mental depths of this moving review, we shall embark upon a heartfelt exploration of the book is key styles, dissect its fascinating publishing style, and yield to the powerful resonance it evokes strong within the recesses of readers hearts.
