The Beast A Journey Through Depression:

The Beast Tracy Thompson, 2014-10-19 A frightening tale that will strike a nerve in anyone whose life has been touched by the agony of mental illness. People. It hides in plain sight in the colleague who drinks too much in the friend who keeps canceling nights out in the teenager who won't leave his room. It is frequently found running in tandem with other life threatening diseases. It is in our colleagues in our friends in our families. Depression has afflicted Tracy Thompson most of her life. To the outsider looking in she was a happy person with a rewarding career a beautiful family and a large circle of friends. But lurking beneath the veil of contentment was a dark inexplicable and all consuming despair that she would later dub *The Beast*. In this unflinching chronicle of her continuing battle against *The Beast* Tracy Thompson writes with ceaseless candor on her struggles and the internal war that pursued her from youth to adulthood undermining relationships complicating her career and threatening her family. Thompson recounts this most personal and vital battle to reclaim her life before depression could take it from her. A seminal work on depression at publication *The Beast* remains an essential read to the millions of Americans enduring this affliction in either their loved ones or themselves. It offers an insightful perspective on the disease and a glimmer of hope. Ms Thompson takes a clear eyed look at work as well as love intertwining the success story of her journalistic career she eventually becomes a reporter on *The Washington Post* with her record of numb despair suicide attempts and hospitalizations. *The New York Times* *The Madness of Women* Jane Professor Ussher, Jane M. Ussher, 2011-03-28 Nominated for the 2012 Distinguished Publication Award of the Association for Women in Psychology. Why are women more likely to be positioned or diagnosed as mad than men? If madness is a social construction a gendered label as many feminist critics would argue how can we understand and explain women's prolonged misery and distress? In turn can we prevent or treat women's distress in a non pathologising women centred way? *The Madness of Women* addresses these questions through a rigorous exploration of the myths and realities of women's madness. Drawing on academic and clinical experience including case studies and in depth interviews as well as on the now extensive critical literature in the field of mental health Jane Ussher presents a critical multifactorial analysis of women's madness that both addresses the notion that madness is a myth and yet acknowledges the reality and multiple causes of women's distress. Topics include: The genealogy of women's madness incarceration of difficult or deviant women Regulation through treatment Deconstructing depression PMS and borderline personality disorder Madness as a reasonable response to objectification and sexual violence Women's narratives of resistance. This book will be of great interest to students and scholars of psychology gender studies sociology women's studies cultural studies counselling and nursing. *Choosing Life: One man's journey through alcoholism and depression to wellness and self-discovery* Blue Andrews, 2022-08-18 *Choosing Life* is the courageous and compelling story of Blue Andrews who fell into debilitating depression and then worked his way back to become stronger than ever. The Empire of Depression Jonathan Sadowsky,2020-10-22 Depression has colonized the world Today more than 300 million of us have been diagnosed as depressed But 150 years ago depression referred to a mood not a sickness Does that mean people weren t sick before only sad Of course not Mental illness is a complex thing part biological part social its definition dependent on time and place But in the mid twentieth century even as European empires were crumbling new Western clinical models and treatments for mental health spread across the world In so doing depression began to displace older ideas like melancholia the Japanese *utsush* or the Punjabi sinking heart syndrome Award winning historian Jonathan Sadowsky tells this global story chronicling the path breaking work of psychiatrists and pharmacists and the intimate sufferings of patients Revealing the continuity of human distress across time and place he shows us how different cultures have experienced intense mental anguish and how they have tried to alleviate it He reaches an unflinching conclusion the devastating effects of depression are real A number of treatments do reduce

suffering but a permanent cure remains elusive Throughout the history of depression there have been overzealous promoters of particular approaches but history shows us that there is no single way to get better that works for everyone Like successful psychotherapy history can liberate us from the negative patterns of the past **Eating, Drinking, Overthinking** Susan Nolen-Hoeksema,2006-12-26 Explores the relationship between overthinking a tendency to continually think about problems rather than to seek solutions and unhealthy eating habits or heavy drinking explaining how these three factors reinforce one another and offering ways to break the cycle *You Need Help!* Mark S Komrad,2012-07-31 If you feel that a friend or loved one has a problem and needs professional help this step by step guide will give you the tools to approach engage and support him or her Just about everyone knows a relative friend or coworker who is exhibiting signs of emotional or behavioral turmoil Yet figuring out how to reach out to that person can feel insurmountable We know it is the right thing to do yet many of us hesitate to take action out of fear of conflict hurt feelings or damaging the relationship Through a rich combination of user friendly tools and real life stories Mark S Komrad MD offers step by step guidance and support as you take the courageous step of helping a friend who might not even recognize that he or she is in need He guides you in developing a strong course of action starting by determining when professional help is needed then moves you through the steps of picking the right time making the first approach gathering allies selecting the right professional and supporting friends or relatives as they go through the necessary therapeutic process to resolve their problems Included are scripts based on Komrad s work with his own patients designed to help you anticipate next steps and arm you with the tools to respond constructively and compassionately You will also find the guidance and information needed to understand mental illness and get past the stigma still associated with it so you can engage and support your loved one with insight and compassion in his or her journey toward emotional stability and health The Ghost in the House Tracy Thompson,2024-06-11 An award winning reporter for the Washington Post Tracy Thompson was thirty four when she was hospitalized and put on suicide watch during a major depressive episode This event the culmination of more than twenty years of silent suffering became the point of departure for an in depth groundbreaking book on depression and her struggle with the disease The Beast shattered stereotypes and inspired countless readers to confront their own battles with mental illness Having written that book and having found the security of a happy marriage Thompson assumed that she had learned to manage her illness But when she took on one of the most emotionally demanding jobs of all being a mother depression returned with fresh vengeance Very quickly Thompson realized that virtually everything she had learned up to then about dealing with depression was now either inadequate or useless In fact maternal depression was a different beast altogether She tackled her problem head on meticulously investigating the latest scientific research and collecting the stories of nearly 400 mothers with depression What she found was startling a problem more widespread than she or any other mother struggling alone with this affliction could have imagined Women make up nearly 12 million of the 19 million Americans affected by depression every year

experiencing episodes at nearly twice the rate that men do Women suffer most frequently between the ages of twenty five and forty four not coincidentally the primary childbearing years The Ghost in the House the result of Thompson s extensive studies is the first book to address maternal depression as a lifelong illness that can have profound ramifications for mother and child A striking blend of memoir and journalism here is an invaluable resource for the millions of women who are white knuckling their way through what should be the most satisfying years of their lives Thompson offers her readers a concise summary of the cutting edge research in this field deftly written prose and above all hope Black Dogs and Blue Words Kimberly K. Emmons,2010-02-16 His black dog that was how Winston Churchill referred to his own depression Today individuals with feelings of sadness and irritability are encouraged to talk to your doctor These have become buzz words in the aggressive promotion of wonder drug cures since 1997 when the Food and Drug Administration changed its guidelines for the marketing of prescription pharmaceuticals Black Dogs and Blue Words analyzes the rhetoric surrounding depression Kimberly K Emmons maintains that the techniques and language of depression marketing strategies vague words such as worry irritability and loss of interest target women and young girls and encourage self diagnosis and self medication Further depression narratives and other texts encode a series of gendered messages about health and illness As depression and other forms of mental illness move from the medical professional sphere into that of the consumer public the boundary at which distress becomes disease grows ever more encompassing the need for remediation and treatment increasingly warranted Black Dogs and Blue Words demonstrates the need for rhetorical reading strategies as one response to these expanding and gendered illness definitions **The Bipolar Disorder Survival Guide, Second Edition** David J.
