*Why Can't I Stop?* Jon E. Grant, Brian L. Odlaug, Samuel R. Chamberlain, 2016-06-01. A life-changing book for anyone caught in the whirlpool of a behavioral addiction. At some point in our lives, we all engage in behaviors that are risky, irrational, or unwise. We might find it exciting and temporarily rewarding to gamble on the lottery or impulsively buy an expensive gadget. But just as substances like alcohol and narcotics have the potential to become addictive, so do certain behaviors. A person addicted to gambling, shopping, the internet, food, or picking at their skin may suffer shame in the shadows while their behavior consumes time and energy and disrupts their life. Some people with behavioral addictions lose their family, job, savings, and home. With a physical basis in the brain, behavioral addictions are serious illnesses, but simply willing yourself to stop is usually not enough. *Why Can't I Stop?* is for anyone who has a behavioral addiction, as well as their supportive families and friends. Examining seven of the most common and serious addictions—gambling, sex, stealing, internet use, shopping, and buying hair pulling and skin picking and food—the authors bring together cutting-edge research to describe behavioral addiction, its causes, and how it can be diagnosed and treated. Featuring patient stories of behavioral addiction and recovery, as well as information about treatment centers, this compassionate guide will help readers better understand the complicated issues surrounding these addictions and teach family members how to help the addicted person while helping themselves.

**Behavioral Addictions: A New Solution to Very Old Problems** Stephen Rich Merriman, 2016-06-01. *Behavioral Addictions: A New Solution to Very Old Problems* is a pioneering work. It expands the whole arena of how addiction is regarded and the extensive ground addictions can cover. The book honors early self-help pioneers who noticed certain hallmarks of addiction in behaviors far removed from their prior drug and alcohol-based addiction histories. What they noticed is now codified as the Five Diagnostic Criteria for diagnosing addiction: all addictions. The Five Diagnostic Criteria, because they are derived directly from the world of alcoholism and drug addiction, are especially important and useful. Showing up as they do in non-substance-based behaviors, the Five Diagnostic Criteria provide the bridge that conclusively proves the existence of Behavioral Addictions and establishes the foundation for their correct diagnosis and treatment. With this bridge between substance-based and non-substance-based addictions, firmly established addiction as a concept can no longer be peremptorily minimized to simply having an addiction to some particular drug or some specific behavior. Rather, the underlying reality is an energy: ADDICTION ENERGY that transcends both substances and non-substance-based behaviors. This Energy can use any outlet, either

substance based purely behavioral or both to work its destructive ways Behavioral Addictions A New Solution to Very Old Problems takes a close look at Addiction Energy fathoming its qualities and characteristics both in their destructive aspects and drawing from each quality certain hints regarding various healing possibilities Behavioral Addictions A New Solution to Very Old Problems also includes a thoughtful description of a range of specific behavioral addictions and numerous perspectives regarding their correct diagnosis including self diagnosis and treatment including self help The book offers a vision of extended healing possibilities Finally Behavioral Addictions A New Solution to Very Old Problems sends forth a call to the professional field of addictions treatment to at long last welcome and claim Behavioral Addictions as a rightful part of the field s responsibility and mission
