The Cause And Cure Of Breast Cancer:

The Cause and Cure of Breast Cancer Dick Schuyt, 2014-10-26 Why do health conscious people still contract cancer and what triggers this cancer progress Ask any cancer treatment professional and you will not get an answer They really don't know And many don't want to know since business is booming There is however a doctor who found the cause of cancer and treated his patients with a 95% success rate It should be headlines However to the contrary this doctor was locked in jail wherever he tried to practise The simple but profound knowledge of why cancer starts in a perfectly healthy body will make you a winner in dealing with cancer and you will become a blessing to others sharing it It has been open season on women for too long the profiteering has to stop Many women have expressed their intuition that cancer can be healed Many have felt all along that disease is triggered by emotions Well you've been right all along This doctor has found the proof **Cancer's Cause, Cancer's Cure: The Truth About Cancer, Its Causes, Cures, and Prevention** Morton Walker, D.P.M., 2013-09-17 Cancer is an illness we all dread simply because it is very difficult to cure Massive amounts of money have been spent not only trying to find a cure but to help potential victims prevent the disease from occurring in the first place Following on the heels of the discovery of DNA's double helix Dr Mirko Beljanski a microbiologist at the Pasteur Institute discovered some fundamental truths about cancerous DNA and how carcinogens act on DNA In the course of his discoveries he also discovered highly powerful and scientifically proven botanical agents that kill cancer cells Beljanski found that his botanicals were selective they only harmed the cancerous cells but didn't harm healthy cells In the process Dr Beljanski was vilified by the French government but he continued on with his research and found that when his botanical agents are coupled with traditional chemo and radiation cancer therapies each becomes more effective thus finding a highly viable integrative cancer solution Current studies on Dr Beljanski's products have been conducted through the Cancer Treatment Centers of America and the Center for Holistic Urology at Columbia University There is more research that needs to be done to confirm Dr Mirko Beljanski's major breakthroughs in cancer treatments There is a way to make this most feared of diseases manageable The war on cancer is winnable but only if we all band together and demand that the research be done so that anyone who ever hears the dreaded words you have cancer doesn't feel like they've been handed a death sentence *Enhancing Your Knowledge About Breast Cancer*, **Radiation Oncology for Cure and Palliation** R.G. Parker, N.A. Janjan, M.T. Selch, 2013-06-29 Given that treatment with curative intent is possible in only one half of cancer victims and that such treatment frequently fails the majority of patients with cancer will require relief of symptoms and signs caused by their disease In this book the specific contribution of radiation therapy to palliation is considered within the context of multidisciplinary management Individual chapters are devoted to palliative radiation therapy for primary tumours and metastases at different sites The management of pain is discussed and chapters are also devoted to end of life care the management of complications of radiation therapy and useful medications This book will prove useful to radiation oncologists
