What Is Economics?

Physical items like gas, fast food, computers, and clothing are goods.

Actions supplied by other people are services.

Studying _____ allows you to see "the big picture" created by national and global decision-making.

The study of _____ examines the economic activities of individuals, households, and business firms.

Everyone is an _____.

Identify three examples each of macroeconomics and microeconomics.

Summarize the three economic questions and provide an example of each.

Scarcity and Smart Choices

People must make choices because of _____.

Limited _____ but unlimited wants and needs create scarcity.

Giving up an activity or item for the activity or item you chose is called a _____.

The _____ is the most-valued alternative given up when you make a choice.

Every choice has potential costs and benefits, both in the _____ and in the _____.

Spending no more than the amount of money you earn is when you _____.

The _____ is when satisfaction decreases with every additional quantity of a good or service consumed.

Think of a decision you must make. Write it in the form of a question that can be answered yes or no (Example: Will I try out for the sports ball team?). Then, sketch a simple chart to list the potential costs and benefits of a "yes" answer to your question.

general chemistry demos and simulations - Dec 27 2021

web the virtual labs simulations and animations cover the following topics electrochemistry redox transfers and titration gas laws boyle s charles effusions thermochemistry general equilibria solutions conductivity colligative properties acid base equilibria stoichiometry measurement kinetics organic chemistry periodic trends

virtual post lab 8b titration of a solid acid chemistry libretexts - May 12 2023

web titration of a solid acid in this virtual lab you will be given an unknown monoprotic acid and asked to determine its K_a and molar mass you are titrating it with sodium hydroxide a monoprotic base and so at the equivalent point the moles acid equal the moles base

titration screen experiment resource rsc education - Aug 15 2023

web this resource meets the needs of many specifications for students of ages 14 18 years use this practical simulation for pre lab learning or post lab homework these explanatory demonstration videos may be useful this virtual experiment works best on a desktop pc using the chrome browser

titration experiment interactive simulations edumedia - Feb 09 2023

web titration is an experimental technique that allows us to know the concentration of an unknown acid or base the method relies on the principle of neutralization of an acid with a base the volumetric method illustrated here is to determine the volume V_b of a known base with concentration C_b that is necessary to neutralize a certain volume V_a

titration neutralize an acid lake contamination virtual lab labster - Aug 03 2022

web explain the general steps of a colorimetric acid base titration and its uses perform a titration experiment describe the role of the 3 main reagents used in a titration sample titrant and indicator explain what is the endpoint of a titration and the role of the indicator

virtual lab titration georg august universität göttingen - Feb 26 2022

web this video explains the procedure of a titration a quantitative method to determine the concentration of an unknown solution there are different sorts of titration the acid base titration which is often performed during early semesters or the complexometric titration to determine the cationic concentration of aqueous solutions more

chemcollective virtual labs - Jun 13 2023

web the virtual lab is an online simulation of a chemistry lab it is designed to help students link chemical computations with authentic laboratory chemistry the lab allows students to select from hundreds of standard reagents aqueous and manipulate them in a manner resembling a real lab
