provides a snapshot of the company's financial position at a specific point in time showing its assets, liabilities, and equity. **Income Statement** Also known as the profit and loss statement, it summarizes the revenues, expenses, and net income or loss of a company over a specified period. **Statement of Cash Flows** This statement reports the cash inflows and outflows from operating, investing, and financing activities, providing insights into how cash is generated and used by the business.

Accounting Principles **GAAP** Generally Accepted Accounting Principles. These are a set of standard accounting principles, standards, and procedures that companies use to compile their financial statements in the United States. It ensures consistency, comparability, and transparency in financial reporting. **IFRS** International Financial Reporting Standards. These are accounting standards issued by the International Accounting Standards Board (IASB) used by companies in many countries outside the United States. IFRS aims to harmonize accounting practices globally. **Double Entry Accounting** This is a fundamental accounting principle that states that for every transaction, there are at least two accounts involved: one account debited and another credited. This ensures that the accounting equation (Assets = Liabilities + Equity) remains balanced.

Types of Accounts **Assets** Economic resources owned or controlled by the company, such as cash, inventory, property, and equipment. **Liabilities** Obligations owed by the company to external parties, such as loans, accounts payable, and bonds payable. **Equity** Represents the residual interest in the assets of the company after deducting liabilities. It includes contributed capital from owners and retained earnings. **Revenues** Income generated from the sale of goods or services. **Expenses** Costs incurred in the process of generating revenue. **Accounting Cycle** This is the process that accountants follow to record, analyze, and report financial transactions of a business. It typically includes steps such as identifying transactions, journalizing, posting to ledgers, preparing trial balances, adjusting entries, preparing financial statements, and closing entries. **Auditing** This is the examination of financial statements and accounting records by an independent auditor to ensure their accuracy and compliance with accounting standards and regulations. Understanding these basic principles and concepts provides a solid foundation for anyone interested in learning more about accounting and its role in business operations and decision making.

Intermediate Accounting Donald E. Kieso, Jerry J. Weygandt, Terry D. Warfield, 2010-06-01. US public companies will have to follow International Financial Reporting Standards as of January 1, 2011.
