Reading-to-Write Linda Flower,Victoria Stein,John Ackerman,Margaret J. Kantz,Kathleen McCormick,Wayne C. Peck,1990-09-20 The Social and Cognitive Studies in Writing and Literacy Series is devoted to books that bridge research theory and practice exploring social and cognitive processes in writing and expanding our knowledge of literacy as an active constructive process as students move from high school to college This descriptive study of reading to write examines a critical point in every college student s academic performance when he or she is faced with the task of reading a source integrating personal ideas and creating an individual text with a self defined purpose Offering an unusually comprehensive view of this process the authors chart a group of freshmen as they study and write in their dormitories recording their think aloud strategies for reading writing and revising their interpretation of the task and their broader social cultural and contextual understanding of college writing Flower Stein and colleagues convincingly conclude that the legacy of schooling in general makes the transition to college difficult and more important that the assumptions students hold and the strategies they use in undertaking this task play a significant role in their academic performance Embracing a broad range of perspectives from rhetoric composition literacy research literary and cultural theory and cognitive psychology this rigorous analysis treats reading to write as both a cognitive and social process It will interest researchers and theoreticians in rhetoric and writing teachers working with students in transition from high school to college and educators involved in the links between cognition and the social process , **Elocution** C. Alpha Nutrition Program Stephen Gislason MD,2017-07-24 The Alpha Nutrition Program is a set of instructions and nutrient tools designed to resolve disease through diet revision The program is nutritional therapy a personal technology of health restoration and health maintenance The development of the Alpha Nutrition Program began many years ago with observation that some food selection patterns are associated with dysfunction and disease In one person for example the daily ingestion of multigrain bread milk cheese bran muffins beef coffee orange juice and wine is associated with chronic fatigue sleepiness after eating nose congestion flushing headaches generalized aching stiffness and episodes of unexplained depression When the food list is changed to rice vegetables chicken peaches and pears the symptoms disappear and the person reports increased energy and a renewed sense of well being Similar observations are reported in a large sample of people of all ages A variety of other

dysfunctional patterns are found to improve with proper diet revision We reasoned that everyone probably has a small set of best fit foods that would allow them to feel and function optimally The first goal of therapy should then be to identify the simplest set of best foods for each person The core concept further developed as we kept score of adverse food reactions reported by patients and found that rice and common cooked vegetables were among the best tolerated and most acceptable of all food choices

Communicating Hope Christine Davis,2016-06-16 Kevin is a sometimes violent teenager with severe emotional disturbance in a family environment of poverty and stress In this ethnography of a children s mental health care team communication scholar Christine S Davis delves deeply into how members of the team create hope for themselves for Kevin and for his family using a strengths orientation and future focus A rich evocative narrative that highlights multiple voices and interpretations Davis provides a multilayered study of how social service workers can motivate and heal troubled families in challenging environments The volume includes clinical and practice considerations for those working in the social welfare system

Christianity from the Ground Up Ian Dodkins,2024-01-19 How did all species fit on the ark Where is Jesus now What is the purpose of heaven These are questions many Christians have asked themselves but they have also led many people to become atheists This book doesn t answer them it shows how these questions are missing the point and explains how core Christian values arise naturally from the human experience and why these values are so important to live a life of contentment despite all trials This book combines knowledge in science not pseudo science with understanding in wisdom texts including the Bible Stoicism and Taoism It explains why forgiveness optimism gratitude humility and love are so important in our lives Along the way readers will learn about relativity the size of the universe the purpose of life how to feel content mental strength and how Job expresses sentiments similar to Taoism The book talks about Christian history the effect of fasting on the body and mind and stories such as the Frog in the Well This book isn t trying to convince the reader it s a journey through life science and religion that will certainly teach something new
