When Silence Becomes Too Loud:

WHEN SILENCE BECOMES TOO LOUD Chidera Okolie, 2015-01-01 Philip believed he was unsurpassed at what he does He had worked hard and wasn't going to let himself feel otherwise But something about the Mbanugo murders made him qualm Just when he thinks he has the murderer a lacuna appears to smash all to smithereens He had heard of them that didn't bother him He was after all the best Maybe just maybe he underestimated them Philip had in his hands the deadly breed A SMOOTH OPERATOR

Eternity and Beyond... Razi, 2018-11-30 From a series of non sequential words that make absolutely no sense but sound incredibly good together to a couple of stanzas that narrate a story each and every poem in this book has been through its journey of ups and downs Coming straight from the quill of an adolescent the book includes an apt collection of poems that include but are not limited to the one feeling that rules the entire world

Moving Images Andrea Sabbadini, 2014-02-03 The experience of watching films entertaining moving instructive frightening or exciting as they may be can be enriched by the opportunity to reflect upon them from unconventional perspectives Psychoanalytic Reflections on Film Moving Images offers its readers in an accessible language one such viewpoint informed by Andrea Sabbadini's psychoanalytic insights and therapeutic experience Using a psychoanalytic interpretative approach some twenty five important feature films are discussed as the artistic vehicles of new unsuspected meanings The first chapter looks at films which represent psychoanalytic work itself having therapists and their patients as their main characters The remaining five chapters cover movies on themes of central concern to analytic theorists and clinicians such as childhood and adolescent development and varieties of intimate relationships among adults The latter include romantic love and its disturbing association to death fantasies eroticism and prostitution and voyeuristic desire a significant phenomenon in this context given its parallels with the activity of watching films Andrea Sabbadini's psychoanalytic approach which explores the part played by unconscious factors in shaping the personality and behaviour of film characters is used to interpret their internal world and the emotional conflicts engendered by the vicissitudes they live through The book is completed by a filmography and biographical notes on film directors Psychoanalytic Reflections on Film presents the relationship between cinema and psychoanalysis as a complex one These two most different of cultural phenomena are shown to share a wish on the part of their practitioners to uncover profound truths about the human condition and to provide a language with which to describe them Going beyond futile psycho historical attempts to analyse filmmakers through their products or a superficial application of psychoanalytic concepts to film Sabbadini shows how both cinema and psychoanalysis can benefit from a meaningful interdisciplinary dialogue between them The book will be of special interest to practicing psychoanalysts and students scholars and historians of film studies
