Teaching Writing in Chinese Speaking Areas Mark Shiu-Kee Shum, De-lu Zhang, 2005-11-23. One of the most civilized nations in history China has a long standing writing tradition and many Chinese texts have become world treasures. However the way the Chinese teach writing in various countries in contemporary times is little known to the outside world especially in Western countries. Undoubtedly the Chinese have had an established traditional method of writing instruction. However recent social and political developments have created the perception amongst both practitioners and researchers of a need for change. Whilst certain socio-political changes both in Mainland China and in the territories acted as agents for reform of the teaching of composition the shape these reforms are taking has been due to many different influences coming both from inside the countries themselves and from foreign sources. Mainland China, Hong Kong, Taiwan and Singapore have each developed their own approach to the teaching of composition.

ENGLISH WRITING DEVELOPMENT LIXIA WEI, 2018-02-13. English Writing Development 4MAT Learning Style and Thinking Visualization Strategies is designed as an introductory course in English writing for students, teachers and all those who consider writing is important and fun. It is based on the author's own experience of teaching English writing to undergraduates who major in English and training students to participate in provincial and national English writing contests. Instead of showing the skeleton of writing to readers directly, the author integrates the 4MAT Process Approach that she has developed on the basis of the 4MAT learning style and the Process Approach into the design of the book, aiming to increase learners' motivation by answering why they should learn, what they should learn, how they should apply what they have learnt and what if the situation changes in each chapter. With corpora, news and students' work as resources to collect sample sentences, paragraphs and essays, the author elaborates eight main aspects which are: writing process, writing a paragraph, writing an essay, methods of paragraph development, types of clause, types of sentence, rhetorical devices, paraphrase and summary. English Writing Development 4MAT Learning Style and Thinking Visualization Strategies is not only the ideal English writing textbook for students at different levels but also functions equally well as a self-tutoring textbook. The simple, reader-friendly explanations coupled with interesting and meaningful examples, figures, tables and the checklists are of great help for the learners to make progress on their own.
