What The Public Doesn T Know About Public Schools:

What the Public Doesn't Know about Public Schools Michael Wetmiller,2014-12-06 What the Public Doesn t Know About Public Schools addresses current issues in education by taking you inside the walls of the public school It is written from the perspective of a school principal who deals first hand with the results of standardized tests teacher evaluations unions bomb threats kids living in poverty special education federal mandates discipline bullying suspensions expulsion hearings school safety evacuation drills lockdowns teen pregnancies a reduced budget and social network issues that find their way into the school This is not written from a political perspective but from a personal perspective It is written to inform to explain how things really work inside of America s public schools and attempts to answer the following questions based on personal experiences from working in both urban and suburban schools What do school rankings based on test scores really tell us What does a school do when a bomb threat is found in the bathroom When a parent calls to report a bullying issue how does the school react What powers does a principal really have when it comes to the discipline of students What is the relationship between teacher effectiveness and test scores What is the impact of our modern American culture on public schools What is the purpose of the Common Core and how does it really impact educators What is a charter school and how do they impact public schools Get answers to these questions and more through an intimate first hand look at how public schools really work

Preserving the Public in Public Schools Phil Boyle,Del Burns,2012 What s public about public schools Why do we invest in educating the next generation of Americans What is it that drives our common purpose in educating children and at the same time divides us so passionately about how to educate them Public schools have little to do with children Schools are political and ideological institutions in which each generation battles among itself for supremacy in determining the purposes goals and direction of public education From battles over school lunch to school dress to school prayer each generation reinterprets and recapitulates the political and ideological arguments that date back to the founding of our nation More than two centuries after the American Revolution public schools serve as political battlefields for debates about religious freedom and whether students should be allowed to wear U S flag teeshirts We invite you to join us in an exploration of the purposes of public schools the competing visions of public education and the values of the public good that comprise the public in public schools

Status of the District of Columbia Public Schools Readiness for the 1998-1999 School Year United States. Congress. House. Committee on Government Reform and Oversight. Subcommittee on the District of Columbia,1999 A Congressional hearing

was held to discuss the readiness of the District of Columbia public schools for the 1998 99 school year In the 1997 98 school

year the District's public schools had not been able to open on time because of repair work that was not completed. After opening remarks by Congress members Thomas M Davis and Constance Morella, Constance Newman, Vice Chairman of the District of Columbia Financial Responsibility and Management Assistance Authority, spoke about the efforts underway to improve the D.C. public schools. Arlene Ackerman, Superintendent of Schools for the District of Columbia, assured the Subcommittee that the schools would be opening on time and that improvements to facilities and to instruction were ongoing. Colonel Bruce Berwick of the Army Corps of Engineers, responsible for engineering technical assistance to the school system, emphasized that all schools would be able to open in safe conditions by September 1, 1998, even though all capital projects would not be completed. Arthur Turowski, Director of Portfolio Management for the Public Buildings Service of the National Capital Region of the General Services Administration, reviewed the role of that agency in the facilities repair and improvement process. Additional statements were made by these witnesses: 1. Maudine Cooper, Chairman of the school system's Emergency Transition Board; 2. Wilma Harvey, President of the elected School Board; and 3. Carlotta C. Joyner of the U.S. General Accounting Office. Constance Newman and Arlene Ackerman summarized issues facing the D.C. schools and touched on areas related to academic achievement and the situation of charter schools. The prepared statements of each witness follow their testimony.

SLD *The State, Business and Education* Gita Steiner-Khamsi, Alexandra Draxler, 2018-10-26

Businesses, philanthropies, and non-profit entities are increasingly successful in capturing public funds to support private provision of schooling in developed and developing countries. Coupled with market-based reforms that include weak regulation, control over workforces, standardization of processes, and economies of scale, private provision of schooling is often seen to be convenient for both public authorities and businesses. This book examines how the public subsidization of these forms of private education affects quality, equality, and the realization of human rights. With original research from leading experts, *The State, Business and Education* sheds light on the privatization of education in fragile circumstances. It illustrates the ways in which private actors have expanded their involvement in education as a business and shows the influence of policy borrowing on the spread of for-profit education. Case studies from Argentina, Bangladesh, Brazil, China, India, and Syrian refugee camps illustrate the ways in which private actors have expanded their involvement in education as a business. This book will be of interest not only to academics and students of international and comparative education but also to education development professionals in both the private and public sectors, with its empirical assessment of case studies and careful consideration of the lessons to be learned from each. Seeing Complexity in Public Education Donald Peurach, 2011-09-05

In a period of unprecedented pressure to reform education in the United States, two questions stand out: What is involved in the work of transforming underperforming schools into higher performing schools? And what makes this work so difficult? *Seeing Complexity in Public Education*

examines these questions in light of the history of the Success for All Foundation an organization that has collaborated with thousands of elementary schools across the US to enact a common design for comprehensive school reform all in the effort to improve the reading achievement of millions of students This story of Success for All spans a long and turbulent period beginning in 1987 with the strategy of improving reading achievement by improving students cooperative learning in classrooms and stretching through 2008 with efforts to influence federal policy to support that strategy There is nothing in the story of Success for All to suggest that schools can be improved through silver bullets stump speeches or passionate debate Rather the theme that emerges from the story of Success for All is that the problems and possibilities of effective large scale and sustainable education reform lie in the complexity of public education in the interactions among underperforming schools programs of reform the organizations that advance those programs and the environments in which they operate The story of Success for All is sobering in that it locates first order problems of education reform not in the schools that need to improve but instead in the many reformers so determined to improve them By tracing Success for All s deep push into the full world of US public education this book assists both populist and professional reformers in seeing understanding and ultimately confronting its complexity *Law and the Shaping of Public Education, 1785-1954* David B. Tyack, Thomas James, Aaron Benavot, 1987 Using case studies as illustrations this text explores the ways in which public schooling was shaped by state constitutions by state statutes and administrative law and by appellate decisions concerning public public education **Public Papers of the Presidents of the United States, William J. Clinton** United States. President (1993-2001 : Clinton), 1999 *The Changing Landscape of Religious Expression in US Public Schools* Brett A. Geier, 2025-11-20 This book explores the intersection of issues related to religion and state in public schools in the United States Framed through a study of the landmark 2022 Supreme Court case Kennedy v Bremerton School District where a high school football coach s post game prayers at midfield became the centerpiece of a major ruling on religious expression in public schools the book analyzes how this case represents a significant shift in the Supreme Court s interpretation of the Establishment Clause particularly under the Roberts Court which has increasingly favored religious freedom claims over strict separation of church and state Through eleven chapters Geier explores the historical context of religion in American public schools the rise and fall of the Lemon test the influence of Christian Nationalism and provides a detailed analysis of both the majority opinion written by Justice Gorsuch and the dissent by Justice Sotomayor Drawing from his experience as a public school administrator and legal researcher Geier argues that this ruling signals a new era where individual religious rights are being prioritized over Establishment Clause concerns in public schools potentially leading to increased religious expression in educational settings *The American Dream and the Public Schools* Jennifer L. Hochschild, Nathan Scovronick, Nathan B. Scovronick, 2004-10-21 Examines desegregation school funding testing vouchers bilingual education multicultural education and ability grouping These seem to be separate problems but much of the contention over them

comes down to the same thing an apparent conflict between policies designed to promote each student's ability to pursue success and those designed to insure the good of all students or the nation as a whole. The authors show how policies to promote individual success too often benefit only those already privileged by race or class. The book also examines issues such as creationism and afrocentrism. *Executive offices, public schools, vocational rehabilitation, corporation counsel, fire department, civil defense, outside witnesses.* 1963. 949 p. United States. Congress. Senate. Committee on Appropriations, 1963. *A Plan for Evaluating the District of Columbia's Public Schools* National Research Council, Division of Behavioral and Social Sciences and Education, Committee on the Independent Evaluation of DC Public Schools, 2011-08-25. The District of Columbia DC has struggled for decades to improve its public education system. In 2007 the DC government made a bold change in the way it governs public education with the goal of shaking up the system and bringing new energy to efforts to improve outcomes for students. The Public Education Reform Amendment Act PERAA shifted control of the city's public schools from an elected school board to the mayor. Developed a new state department of education created the position of chancellor and made other significant management changes. A Plan for Evaluating the District of Columbia's Public Schools offers a framework for evaluating the effects of PERAA on DC's public schools. The book recommends an evaluation program that includes a systematic yearly public reporting of key data as well as in depth studies of high priority issues including quality of teachers principals and other personnel quality of classroom teaching and learning capacity to serve vulnerable children and youth promotion of family and community engagement and quality and equity of operations management and facilities. As part of the evaluation program the Mayor's Office should produce an annual report to the city on the status of the public schools including an analysis of trends and all the underlying data. A Plan for Evaluating the District of Columbia's Public Schools suggests that DC engage local universities philanthropic organizations and other institutions to develop and sustain an infrastructure for ongoing research and evaluation of its public schools. Any effective evaluation program must be independent of school and city leaders and responsive to the needs of all stakeholders. Additionally its research should meet the highest standards for technical quality. **Globalization, Technological Change, and Public Education** Torin Monahan, 2013-01-11. Globalization Technological Change and Public Education documents the dramatic changes taking place in public education through the incorporation of new information technologies. These additions to the public school environment have generally been seen as enabling tools to help students and nations compete in the global marketplace. Yet a closer look at the interplay of technological change and organizational restructuring suggests the emergence of new less promising power relations. Through detailed ethnographic research and interviews in the Los Angeles public school system Torin Monahan reveals how with few exceptions these changes to the educational process are forcing both students and workers to adapt to systems that are ever more rigid and controlling. *Hearings, Reports and Prints of the Senate Committee on Labor and Public Welfare* United States.
