in the Chinese university context It theorizes the concept of teacher agency from a sociocultural theory perspective and draws on a study conducted in a conservative and less developed area in China The book uses Engeström's activity theory and Vygotsky's concept of the Zone of Proximal Development ZPD to understand the nature and extent of teacher agency in adapting one's teaching with respect to beliefs knowledge and instructional practices The study concludes that curriculum reform in China needs to shift from reliance on top down policies to bottom up implementation that mobilizes local understandings and practices One of the implications of this study is that transformative teacher education programs aimed at developing teacher pedagogical agency require that teachers have ongoing opportunities to design develop and evaluate curriculum based mediational means

Historical Dictionary of Malaysia Ooi Keat Gin, 2017-12-18 Malaysia is one of the most intriguing countries in Asia in many respects It consists of several distinct areas not only geographically but ethnically as well along with Malays and related groups the country has a very large Indian and Chinese population The spoken languages obviously vary at home although Bahasa Malaysia is the official language and nearly everyone speaks English There is also a mixture of religions with Islam predominating among the Malays and others Hinduism and Sikhism among the Indians mainly Daoism and Confucianism among the Chinese but also some Christians as well as older indigenous beliefs in certain places This second edition of Historical Dictionary of Malaysia contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Malaysia

Beyond the Enclave Godfrey Kanyenze, 2011 Beyond the Enclave sets out to unravel the contradiction of a country Zimbabwe where a rich diverse resource base co exists with endemic poverty One reason lies in the colonial economy which was predicated on an ideology of white supremacy creating an enclave formal economy employing one fifth of the labour force Yet over three decades after independence the non formal segment has become even more entrenched This book assesses Zimbabwe's economy through three main phases 1980-0 when a strong social policy framework proved difficult to sustain due to erratic growth and 1991-6 when structural adjustment demanded a market

driven approach to development The third phase is characterized by crisis management leading to policy inconsistencies and reversals Not surprisingly such incoherence saw the economy descend into hyperinflation and paralysis in 2007 8 leading to the signing of the Global Political Agreement in September 2008 In the absence of formal dollarization economic recovery after the adoption of the multi currency regime has remained fragile leaving an estimated 70 per cent of the population outside the banking system This has further entrenched uneven enclave growth as the economy remains locked in a low income poverty trap There is a need to facilitate transition towards formality to promote decent jobs Furthermore a strategic developmental role for the state in the economy is now widely recognized as vital for development Beyond the Enclave argues for a new approach to development in Zimbabwe based on pro poor and inclusive strategies which will contribute to the well being of all of its citizens and wise stewardship of its resources It offers suggestions on policy formulation implementation monitoring and evaluation in all sectors designed to promote inclusive growth and humane development

Professional Development of English Language Teachers in Asia Kayoko Hashimoto, Van-Trao Nguyen, 2018-05-16 Why has English language proficiency in Japan remained so low in comparison to other Asian countries Has Vietnam attempted to improve English language teaching because ASEAN has adopted English as its working language Why do English language teachers struggle with curriculum changes imposed by governments in order to make them competitive in the international community Do professional development PD programs actually meet the needs of teachers This book addresses issues surrounding these questions by examining how the Japanese and Vietnamese governments have approached and defined the PD of English language teachers and how such PD programs have been delivered It further analyses the impact of policy changes on individual teachers and explores how PD can help teachers to implement such changes effectively at the micro level PD of language teachers or language teacher education is relatively new as a field of inquiry in Applied Linguistics By including case studies of Japan and Vietnam in the one volume this book embarks on the challenging task of demonstrating that PD is an essential element of the successful implementation of language policies in Asia where World Englishes have been shaped by distinct local contexts Second Language Instruction/acquisition Abstracts ,1992 *A Unified Approach to Contract Interpretation* Ryan Catterwell, 2020-07-23 Interpretation or construction is central to the operation of contract law Despite the fundamental role it plays there have been limited attempts to explain construction in holistic terms This important book aims to fill that gap by offering a systematic exposition of the iterative process It also goes further suggesting practical solutions to disputes regarding questions of interpretation The book argues that construction is not simply about establishing what words mean it is a process through which objective intention is inferred from the choice of words in a contract The interpretive process involves four steps formulate the question of interpretation in dispute explore competing answers to the question analyse the admissible material supporting each interpretation and weigh and balance the competing considerations By so doing the book offers a simple yet sophisticated framework for interpreting constructing

contracts Sport and English National Identity in a 'Disunited Kingdom' Tom Gibbons, Dominic Malcolm, 2017-02-17 Given sport's centrality in English society what role does it play in symbolising contemporary English national identity This comprehensive study explores the complex set of relationships between sport and what it means to be English in the twenty first century The bond between sport and nationalism has long been recognised but with increasingly vociferous separatist nationalisms threatening the dismantling of the United Kingdom a closer analysis is timely Part one addresses key debates regarding English national identity within the specific sporting contexts of association football cricket tennis cycling and rugby Part two discusses the complex relationship between religion sport and English national identity as well as the attitudes and experiences of traditionally marginalized groups including women minority ethnic groups and disabled people Part three considers the perspectives of the other UK nations on the link between sport and English national identity Sport and English National Identity in a Disunited Kingdom is fascinating reading for all those with an interest in the sociology politics and history of sport and the study of nations nationalism and national identity Languages in the Malaysian Education System Asmah Haji Omar, 2015-12-16 This book provides an overview of language education in Malaysia covering topics such as the evolution of the education system from pre independence days to the present time to the typology of schools and the public philosophy behind every policy made in the teaching of languages The book consists of chapters devoted to the teaching of languages that form separate strands but are at the same time connected to each other within the education system These chapters discuss Implementing the national language policy in education institutions English in language education policies and planning in Malaysia Chinese and Tamil language education in Malaysia Teaching of indigenous Malaysian languages The role of translation in education in Malaysia It also discusses the development of language which enables the national language Malay to fulfil its role as the main medium of education up to the tertiary level This book will be of interest to researchers studying language planning teacher education and the sociology of education particularly within the Malaysian context Word Knowledge and Word Usage Vito Pirrelli, Ingo Plag, Wolfgang U. Dressler, 2020-04-20 Word storage and processing define a multi factorial domain of scientific inquiry whose thorough investigation goes well beyond the boundaries of traditional disciplinary taxonomies to require synergic integration of a wide range of methods techniques and empirical and experimental findings The present book intends to approach a few central issues concerning the organization structure and functioning of the Mental Lexicon by asking domain experts to look at common central topics from complementary standpoints and discuss the advantages of developing converging perspectives The book will explore the connections between computational and algorithmic models of the mental lexicon word frequency distributions and information theoretical measures of word families statistical correlations across psycho linguistic and cognitive evidence principles of machine learning and integrative brain models of word storage and processing Main goal of the book will be to map out the landscape of future research in this area to foster the development of interdisciplinary

curricula and help single domain specialists understand and address issues and questions as they are raised in other disciplines
