Connectionist Representations of Tonal Music Michael R.

W. Dawson, 2018-03-13 Previously artificial neural networks have been used to capture only the informal properties of music. However, cognitive scientist Michael Dawson found that by training artificial neural networks to make basic judgments concerning tonal music such as identifying the tonic of a scale or the quality of a musical chord, the networks revealed formal musical properties that differ dramatically from those typically presented in music theory. For example, where Western music theory identifies twelve distinct notes or pitch classes, trained artificial neural networks treat notes as if they belong to only three or four pitch classes, a wildly different interpretation of the components of tonal music. Intended to introduce readers to the use of artificial neural networks in the study of music, this volume contains numerous case studies and research findings that address problems related to identifying scales, keys, classifying musical chords, and learning jazz chord progressions. A detailed analysis of the internal structure of trained networks could yield important contributions to the field of music cognition.

Mimbres Far from the Heartland Mary E. Whisenhunt, Patricia A. Gilman, 2025-08-19 This new work offers a unique investigation into the complexities of Mimbres identity and social dynamics beyond the traditional Mimbres Valley heartland. Situated at the western edge of the Mimbres region, the Powers Ranch site represents the only professionally excavated Classic period settlement in Arizona's Gila River Valley. Through excavation and analysis of architecture and a rich array of artifacts including ceramic sherds, projectile points, and shell artifacts, the authors provide a detailed look at the lives of Mimbres people on the periphery. This work compares findings from Powers Ranch with those from neighboring sites in the Gila River Valley and further east in the Mimbres Valley, unraveling patterns of identity and affiliation that challenge previous understandings. The study is guided by three key research questions: the extent of affiliation between the community at the Powers Ranch site and Mimbres communities to the east; patterns that suggest Powers Ranch was a habitation and not a limited activity site; and whether the site was unique in comparison with Mimbres occupations situated to the south in the Gila River Valley. Contributions from scholars M. Steven Shackley, Martin H. Welker, and Arthur W. Vokes further enrich this volume, ensuring a comprehensive and authoritative exploration of the Powers Ranch site. **Mimbres Far from the Heartland** is an invaluable addition to Southwest archaeology, shedding light on how people constructed unique

identities in edge communities and how these identities were expressed through material culture and social networks Whisenhunt and Gilman's work significantly advances our understanding of Mimbres communities offering new insights into the social resilience and cultural affiliations of people living far from their cultural heartland **Pearson Edexcel GCSE (9-1) Mathematics Higher Student Book 1** Katherine Pate, Naomi Norman, 2020-06-11 The new edition of Pearson Edexcel GCSE 9 1 Mathematics Higher Student Book 1 develops reasoning fluency and problem solving to boost students confidence and give them the best preparation for GCSE study Purposefully updated based on feedback from thousands of teachers and students as well as academic research and impact studies Bolsters preparation for GCSE with new questions that reflect the latest exams and a format that seamlessly aligns with our GCSE Maths courses Shown to help GCSE students master maths with confidence with a UK specific approach that draws upon global best practices and cutting edge research Tried and tested differentiation with a unique unit structure and improved pacing to support every student's progress Extra skills building support problem solving and meaningful practice to consolidate learning and deepen understanding New additions to boost progression and post GCSE study such as Future skills questions and Working towards A level features
