Higher Education ICT Integration in Africa Ke Yu, Reuben Dlamini, 2024-08-21 This multidisciplinary edited volume examines higher education's ICT integration in Africa contributing a new and inclusive change readiness framework to better understand how to manage ICT or other technological disruptions in resource-restrained contexts. Tackling ICT incorporation in HEIs from different levels, chapters document case studies from countries such as Uganda, South Africa, Rwanda, Eswatini, and Zimbabwe to demonstrate both the complexity of integration but also the successes it has enabled and under which conditions. The cases included in this book also exhibit better incorporation of both change content and process while some cases also make explicit reference to other technology adoption models. Ultimately, the book highlights conceptual and empirical research to inform practices and policy development in Africa, improving multi-level success or change readiness in ICT incorporation in HEIs in Africa. Addressing various gaps in existing literature and proposing innovative solutions like the multilevel change readiness model, this book will therefore be of interest to scholars, researchers, and academics in the fields of higher education, ICT integration, and educational technology more broadly. Global Perspectives on Decolonizing Postgraduate Education Gumbo, Mishack Thiza, Gaotlhobogwe, Michael, Pedzisai, Constantino, Jojo, Zingiswa Mybert, Monica, Knaus, Christopher B., 2024-05-13 A deep-seated issue persists in postgraduate education: one that threatens the relevance of academia in our diverse and evolving world. The problem at hand is the Western-centric nature of postgraduate education where research paradigms, methodologies, and theoretical frameworks overwhelmingly reflect a Western worldview. This rigid adherence to Western ideologies has left indigenous communities on the periphery of academic discourse, denying them the opportunity to

engage with their knowledge systems and practices Despite the richness and prevalence of indigenous knowledge the existing educational structure remains a barrier to their inclusion This disconnect is not only an academic concern but also a societal one as it hinders sustainable development and stifles the voices of indigenous scholars and students Global Perspectives on Decolonizing Postgraduate Education serves as a compelling solution to the problem at hand It offers a comprehensive roadmap to decolonize postgraduate education infusing it with indigenous approaches paradigms theories and methods Through critical examination and practical strategies this book empowers academics curriculum designers and postgraduate students to embark on a transformative journey
