Subcommittee on Investigations and Oversight,1989      The Bloomsbury Companion to Aristotle Claudia Baracchi,2014-01-30 Aristotle is one of the most crucial figures in the history of Western thought and his name and ideas continue to be invoked in a wide range of contemporary philosophical discussions The Bloomsbury Companion to Aristotle brings together leading scholars from across the world and from a variety of philosophical traditions to survey the recent research on Aristotle s thought and its contributions to the full spectrum of philosophical enquiry from logic to the natural sciences and psychology from metaphysics to ethics politics and aesthetics Further essays address aspects of the transmission preservation and elaboration of Aristotle s thought in subsequent phases of the history of philosophy from the Judeo Arabic reception to debates in Europe and North America and look forward to potential future directions for the study of his thought In addition The Bloomsbury Companion to Aristotle includes an extensive range of essential reference tools offering assistance to researchers working in the field including a chronology of recent research a glossary of key Aristotelian terms with Latin concordances and textual references and a guide to further reading      Research in Education ,1972      Catalog of Copyright Entries. Nicholas,2021-06-07 In Love and Politics Jeffery L. Nicholas argues that Eros is the final rejection of an alienated life in which humans are prevented from developing their human powers Eros in contrast is an overflowing of acting into new realities and new beauties a world in which human beings extend their powers and senses Nicholas uniquely interprets Alasdair MacIntyre s Revolutionary Aristotelianism as a response to alienation defined as the divorce of fact from value However this account cannot address alienation in the form of the oppression of women or people of color Importantly it fails to acknowledge the domination of nature that blackens the heart of alienated life Alienation must be seen as a separation of the human from nature Nicholas turns to Aristotle first to uncover the way his philosophy embodies a divorce of human from nature then to reconstruct the essential elements of Aristotle s metaphysics to defend a philosophical anthropology based on Eros Love and Politics Persistent Human Desires as a Foundation for Liberation presents a critical theory that synthesizes MacIntyre s Revolutionary Aristotelianism Frankfurt School Critical Theory and Social Reproduction Theory It will be of great interest to political theorists and philosophers
