

Essential Question: What causes extreme weather, and how do people deal with it?

Directions: You are a television meteorologist reporting on a hurricane that will soon reach the Caribbean Islands. Your first news report is to warn people about the coming storm. Use the Introduction and Geographic Setting sections of Chapter 11 to help you fill in the details on the tablet.

Use the following words in your news report:

- natural disaster
- tornadoes
- coastal areas
- precipitation
- tropical cyclone
- tropical zones

"Good evening. We are tracking a developing hurricane that will reach the Caribbean in the next few days. Although it is still too early to know how strong this storm will be, here's what our viewers need to know..."

Who will likely be affected by this storm?

What might we expect to happen with this type of extreme weather?

Why is it so difficult for meteorologists to predict how a storm like this will behave or how to prepare for it?

Unit 3 Chapter 11 The Scramble For Africa
