## Guiding Questions

1. What were the various options of religious belief and practice open to non-Christians in the Graeco-Roman era?
2. Describe the religious institutions to which Jews in the New Testament era devoted themselves.
3. Describe the features of the non-Christian and Jewish religious scene that assisted or influenced the spread of Christianity.

## Paganism

### The Graeco-Roman Pantheon

The religion of early Rome was animism. In the largely rural society farmers worshipped those gods which personified the forces they faced daily, gods of the field, forest, and stream. They appealed to their gods to aid them in sowing and harvesting. These gods had no distinct personalities, and we may best view them as influences or sources of power.

As Rome made contact with Greece, the Romans adopted the personalities and fables of the Greek gods into their own pantheon but changed their names. Zeus, the father of the gods to the Greeks, became Jupiter (Acts 14:12). Hera, the wife of Zeus,

## **The New Testament Its Background And Message:**

*The New Testament* Thomas Lea, David Alan Black, 2003-07-01 Includes revised sections on the text of the New Testament and the synoptic problem      **The New Testament** Bruce M. Metzger, 2012-12 Dr Metzger has given the reader an invaluable resource for the study of the text of the New Testament The book is divided into three major parts Part one begins with a detailed description of the ancient method of bookmaking Next Metzger lists the major Greek manuscripts and codices as well as a basic description of each He also lists the major non Greek witnesses e g Syriac Coptic Latin etc and discusses the role of quotations from the early church Fathers Part two is devoted to the history of the printed editions of the Greek New Testament from the time of the Complutensian Polyglot and the Textus Receptus the text used for the KJV through Westcott and Hort until the present day Part three is an instruction manual for textual criticism including the many theories of criticism and the method of conjectural emendation In this section Metzger also discusses the many types of errors and deliberate changes made by the scribes He then gives an analysis of several textually difficult passages e g Mark 16 and Acts 20 28 The book also includes 16 photo plates that show selected manuscripts A working knowledge of Greek is helpful because Metzger often cites Greek words in the text and footnotes without an English translation If one wishes to learn the basics and more about textual criticism then this is the book to buy Note should be made that this is a decidedly pro Protestant and pro fundamentalist interpretation of the material under discussion      *The New Testament* Thomas Lea, 2003 Includes revised sections on the text of the New Testament and the synoptic problem      Text-Driven Preaching Daniel L. Akin, David L. Allen, Ned Mathews, 2010 Collection of essays urging pastors to commit to presenting true expository preaching from the pulpit from publisher description      **The New Testament** Thomas D. Lea, 1996      **The New Testament** Bruce Manning Metzger, 1983 In this classic text one of America s most widely respected New Testament scholars provides a clear and comprehensive introduction to the New Testament in a straightforward and understandable style without distortion or oversimplification      **The New Testament** Bruce Manning Metzger, 2003 Dr Metzger has given the reader an invaluable resource for the study of the text of the New Testament The book is divided into three major parts Part one begins with a detailed description of the ancient method of bookmaking Next Metzger lists the major Greek manuscripts and codices as well as a basic description of each He also lists the major non Greek witnesses e g Syriac Coptic Latin etc and discusses the role of quotations from the early church Fathers Part two is devoted to the history of the printed editions of the Greek New Testament from the time of the Complutensian Polyglot and the Textus Receptus the text used for the KJV through Westcott and Hort until the present day Part three is an instruction manual for textual criticism including the many theories of criticism and the method of conjectural emendation In this section Metzger also discusses the many types of errors and deliberate changes made by the scribes He then gives an analysis of several textually difficult passages e g Mark 16 and Acts 20 28 The book also includes 16 photo plates that show selected manuscripts A working knowledge of Greek is helpful

because Metzger often cites Greek words in the text and footnotes without an English translation. If one wishes to learn the basics and more about textual criticism, then this is the book to buy. Note should be made that this is a decidedly pro-Protestant and pro-fundamentalist interpretation of the material under discussion. **Introducing the New Testament** Paul J.

Achtemeier, Joel B. Green, Marianne Meye Thompson, 2001-08-10 Explores the literature of the New Testament of the Bible, highlighting the many messages contained within the text and outlining issues that can be discussed by heralding these messages. Also provides background of the time period and locations in which the New Testament was written.

Introducing the New Testament D. A. Carson, Douglas J. Moo, 2010 This abridged edition of *An Introduction to the New Testament* focuses on historical questions dealing with authorship, date, sources, purpose, and destination of the New Testament books. This book will help a new generation of students and church leaders better grasp the message of the New Testament. **Saint Paul** Irving L. Brittle Jr., 2014-08-07 *Saint Paul: The Right Man at the Right Time* was written to get a comprehensive biographical sketch of Saint Paul, including his early life, his life as a Pharisee, his direct contact with Jesus Christ on the Damascus road, his conversion from the many teachings of the Torah, and his God-given mission as the Apostle to the Gentiles. The times in which he lived proved that God chose him as his apostle due to his brilliance and his ability to communicate in both written and verbal forms, not only in Hebrew but in the Greek language, which was important in that historical time. His words and letters are as relevant today as they were in the first century of Christianity, and his teachings are still presented in Protestant churches and sermons today. My hope is one may read *Saint Paul: The Right Man at the Right Time* and have the ability to teach a basic class on the life of Saint Paul and encourage students to further their understanding of the importance of this biblical figure. The work touches on his theology, but I was more intent on giving the reader a personal overview of the man we know as Saint Paul. He very much lived in a time trying to spread a new religion in Christ that was very different from the belief systems of the Jews and Gentiles in the first century. **The New Testament, Its History and Message** Willem Cornelis Unnik, 1964 *THE NEW TESTAMENT* Thomas F.
