everything she once thought about how the world and the world beyond it worked was way more extraordinary than she a hard core sciencey skeptic had ever imagined And in a subplot that seems to fall right in line with the weird trajectory of her life and tackled with the same humorous approach she takes to addressing life s darker moments Liz unexpectedly gets called as a secondary witness in the Harvey Weinstein case which despite its serious tones is filled with the most hilarious twists including visits from Liz s late chihuahua Peanut Through it all Liz continues to honestly address the reality of living with grief call out frauds among the medium community embrace her full awkwardness as she meets researchers she always admired and share her continued shock that overall very normal people seem to be doing the impossible Liz will not only have you laughing but will also leave even the biggest skeptic wondering and hoping could this really be true Could we actually survive death
