Doosuk Kim,2023-05-08 This book attempts to investigate two strands in a single work apocalyptic Paul and intertextuality First what does apocalyptic Paul mean Is it synonymous to eschatology as a theological notion or the end time mystery Many seminal works have delved into the intriguing yet unorganized notion of the apocalyptic Instead of attempting to provide a universal definition of the apocalyptic the author presents his understanding of the phenomenon particularly in the cultural realm The author contends that apocalyptic is neither all about the end time event nor merely a literary genre but an

interpretive lens to understand the world and social phenomena one that is shaped and developed through culture and society Accordingly the term apocalyptic Paul implies how Paul views and understands the world history and supernatural phenomena through interaction with his cultural texts and context Second the author also suggests that intertextuality is not only about comparative literature study Rather intertextuality refers to cultural semiotics a sign system to deliver the meaning of text Based on this notion of intertextuality the author interprets how Paul envisages multiple phenomena heavenly ascent resurrection afterlife the origins of sin and two ages within his cultural context **Assistive Technology**
