Laura is buying a television. It has a 34inch screen. If it is 16inches tall, how wide is the screen? Her television cabinet is 19inches wide. Will the television fit in it?

2. The Window Frames

A house has 7 windows each 120cm by 90cm.

Before the actual windows are fitted a wooden frame as shown is placed in each space.

The wood costs £1.20 per metre and can only be bought in whole metres.

A building is on fire and the fire department are called. They need to evacuate people from the third floor and second floor windows with the extension ladder attached to the back of the truck. The base of the ladder is 2 m above the ground. The fully extended ladder is 25 m in length.

Consider the following questions:

- If the fire truck parks so that the base of the ladder is 7 m from the building, will it reach the third floor window which is 26 m above the ground?
- The second floor window is 22 m above the ground. By how much should the length of the ladder be reduced so that it just reaches the second floor window?
- If the ladder gets stuck in the fully extended position, how much further should the fire truck move away from the building to just reach the second floor window?
