Fourier Series, Fourier Transforms, and Function Spaces Tim Hsu, 2023-12-07 Fourier Series Fourier Transforms and Function Spaces is designed as a textbook for a second course or capstone course in analysis for advanced undergraduate or beginning graduate students By assuming the existence and properties of the Lebesgue integral this book makes it possible for students who have previously taken only one course in real analysis to learn Fourier analysis in terms of Hilbert spaces allowing for both a deeper and more elegant approach This approach also allows junior and senior undergraduates to study topics like PDEs quantum mechanics and signal processing in a rigorous manner Students interested in statistics time series machine learning kernel methods mathematical physics quantum mechanics or electrical engineering signal processing will find this book useful With 400 problems many of which guide readers in developing key theoretical concepts themselves this text can also be adapted to self study or an inquiry based approach Finally of course this text can also serve as motivation and preparation for students going on to further study in analysis

Complex Analysis Theodore W. Gamelin, 2013-11-01 The book provides an introduction to complex analysis for students with some familiarity with complex numbers from high school It consists of sixteen chapters The first eleven chapters are aimed at an Upper Division undergraduate audience The remaining five chapters are designed to complete the coverage of all background necessary for passing PhD qualifying exams in complex analysis Topics studied in the book include Julia sets and the Mandelbrot set Dirichlet series and the prime number theorem and the uniformization theorem for Riemann surfaces The three geometries spherical euclidean and hyperbolic are stressed Exercises range from the very simple to the quite challenging in all chapters The book is based on lectures given over the years by the author at several places including UCLA Brown University the universities at La Plata and Buenos Aires Argentina and the Universidad Autonoma de Valencia Spain
