THE UNIVERSITY OF CHICAGO

James, That's a very interesting question — well, obviously, I take after my mum, I suppose. Our facial features are pretty similar — same eyes, same-shaped eyebrows. I've been photos of her when she was my age and apart from the slightly different ear-lobe the striking image of each other. Some people say that there was a strong family resemblance between my dad and me. I can't see it myself, not really anyway — although there are certain similarities to her physical build. I still seem to have inherited his big feet, luckily! For me, it was the first thing my parents noticed when I was born. Physically-wise, I've got a lot of my dad's traits in me. My nose looks rather bulky and broadly (as two people say), and we share quite a few teeth (approach to life). When it comes to hair, though, I prefer. I've got more like someone with my mum. But I got a whole lot of striking really bright, bushy eyebrows for me, so it's rather, perhaps, or whatever, basically because all these the same kind of things. As I see, the hair also seems to follow the same kind of trend. My colour of hair, my colour of hair, and neither of us are

distorted. Furthermore, several coefficient β 's are both statistically insignificant. Is it something others' perceived one's own gambling skills, or is it something about one's self that is important?
