Ready, 2018 Presenting a new take on what made the Homeric epics such successful examples of verbal artistry this volume explores the construction of the Homeric simile and the performance of Homeric poetry from the neglected comparative perspectives offered by the study of modern day oral traditions

Song of Songs Adele Berlin, 2025-01-07 Berlin approaches the Song of Songs as a Jewish Hellenistic work of love poetry She notes Greek ideas throughout the book and shows how they have been adjusted into Jewish thought and literary forms Going beyond previous studies this volume emphasizes that the Song s blending of the Jewish and the Greek is part of its literary virtuosity

The Language of Power in the Simile "Like a Caged Bird" Woo Min Lee, 2025-10-31 This book presents a sociolinguistic study of the Assyrian royal lion hunt and military inscriptions and reliefs focusing on Sennacherib s campaign against Hezekiah of Jerusalem in 701 BCE Through a comparative analysis of the lion hunt imagery and Assyrian military tactics it examines the goals outcomes and conflicting ideologies surrounding the campaign as depicted in both Assyrian sources and biblical texts While much scholarly attention has centered on the biblical narrative relatively little has been said about the role of Assyrian lion hunt motifs and their relationship to military rhetoric particularly in the use of the simile shut up enclosed like a caged bird *k ma i ur quppi esir u* This academic imbalance has led to a limited and potentially biased understanding of the campaign By drawing on a broader spectrum of Assyrian cultural expressions including royal hunting practices and military records this book opens the door to a more comprehensive and nuanced discussion of Sennacherib s campaign against Judah

The Womb and the Simile of the Woman in Labor in the Hebrew Bible Karen Langton, 2024-10-30 This book explores figurative images of the womb and the simile of a woman in labor from the Hebrew Bible problematizing previous interpretations that present these as disparate images and showing how their interconnectivity embodies relationship with YHWH In the Hebrew Bible images of the womb and the pregnant body in labor do not co occur despite being grounded in an image of a whole pregnant female body the pregnant body is instead fragmented into these two constituent parts and scholars have continued to interpret these images separately with no

discussion of their interconnectivity In this book Langton explores the relationship between these images inviting readers into a wider conversation on how the pregnant body functions as a means to an end a place to access and seek a relationship with YHWH Readers are challenged and asked to rethink how these images have been interpreted within feminist scholarship with womb imagery depicting YHWH s care for creation or performing the acts of a midwife and the pregnant body in labor as a depiction of crisis Langton explores select texts depicting these images focusing on the corporeal experience and discussing direct references and allusions to the physicality of a pregnant body within these texts This approach uncovers ancient and current androcentric ideology which dictates that conception gestation and birth must be controlled not by the female body but by YHWH The Womb and the Simile of the Woman in Labor in the Hebrew Bible is of interest to students and scholars working on the Hebrew Bible gender in the Bible and the Near East more broadly and feminist biblical criticism

Does Nonfiction Equate Truth? Vivian Yenika-Agbaw,Laura Anne Hudock,Ruth McKoy Lowery,2018-03-15 Educators who teach children s literature at the college level as part of the pre service experience seldom allocate enough space in the curriculum for nonfiction literature This book recognizes the viability of nonfiction as a literary genre that demands critical analysis celebrates storytelling in its varied forms and invites teacher educators and pre service teachers our primary audience to nurture a spirit of inquiry and skepticism in the classroom It is an excellent resource for

teacher educators looking for a variety of nonfiction texts to include in their literacy curriculum at both the undergraduate and graduate levels It also offers critical approaches through which students are encouraged to read these texts and ideas for critical inquiry with young learners *Finding Beauty in the Bible* Robert D. Miller II, OFS,2023-08-31 We approach Raphael s Agony in the Garden or Fra Angelico s Crucifixion for their beauty and not primarily to learn about fifteenth century fashion or even to decode the iconography Yet the many books on the Song of Songs whether they try to read the book as an ancient Near Eastern love song or a Christian allegory miss the main point of this book its aesthetic elements Aesthetics is the appreciation of beauty Aesthetics examines literary form as a response to content the way poetics works with contents the use of loaded semantic terms even the sound created by words and what cognitive science tells us it does to listeners This book uses the commentary format to accompany an individual s reading of the Song of Songs focusing on these neglected aspects of the text It both reads the book as it is meant to be read and opens up a new vista on this magnificent biblical text Musical Topics and Musical Performance Julian Hellaby,2023-01-31 The principal purpose of topics in musicology has been to identify meaning bearing units within a musical composition that would have been understood by contemporary audiences and therefore also by later receivers albeit in a different context and with a need for historically aware listening Since Leonard Ratner 1980 introduced the idea of topics his relatively simple ideas have been expanded and developed by a number of distinguished authors Topic theory has now become a well established branch of musicology often embracing semiotics but its relationship to performance has received less attention Musical Topics and Musical Performance thus focuses on the interface of theory and practice and investigates how an appreciation of topical presence in a work may prompt interpretative thoughts for a potential performer as well as how performers have responded to such a presence in practice The chapters focus on music from the nineteenth twentieth and twenty first centuries with case studies drawn from composers as diverse as Beethoven Scriabin and P ter E tv s Using both scores and recordings the book presents a variety of original and innovative perspectives on the subject from a range of distinguished authors and addresses a neglected area of musicology and musical performance **Transgressive Heroism** Raymond Marks,2024-10-07 Roman epic is traditionally understood to advance a masculine martial form of heroism In his version of the Argonaut legend the Argonautica however Valerius Flaccus challenges that prevailing ethos of the genre by turning Medea Jason s love interest in the story into a heroic figure and Jason himself into her emasculated victim The present study charts this plotline as it unfolds in the second half of Valerius epic finding its key source of inspiration in the poetry of Ovid with its tales of transgressive love gender bending and unconventional heroism Employing an extensive program of allusion to his Metamorphoses and elegiac works Valerius transforms Medea from the innocent vulnerable girl we see in her first appearance in the poem into a threatening powerful and masculine figure who not only helps Jason fulfill his quest for the golden fleece but eclipses him as hero in the process Readers of this study will gain insight into Valerius inventive reworking

of the Argonaut myth and innovations within the epic genre as well as a greater appreciation for Ovid's influence on Roman epic poetry in the first century CE *The Song of Songs* Iain M. Duguid, 2015-02-13 Iain Duguid's Tyndale Old Testament Commentary explains how the Song of Songs is designed to show us an idealized picture of married love. It also convicts us of how far short of this perfection we fall both as humans and as lovers and drives us repeatedly into the arms of our true heavenly husband Jesus Christ *The Music Sound* Nicolae Sfetcu, 2014-05-07 A guide for music compositions events forms genres groups history industry instruments language live music musicians songs musicology techniques terminology theory music video Music is a human activity which involves structured and audible sounds which is used for artistic or aesthetic entertainment or ceremonial purposes. The traditional or classical European aspects of music often listed are those elements given primacy in European influenced classical music: melody, harmony, rhythm, tone, color, timbre, and form. A more comprehensive list is given by stating the aspects of sound: pitch, timbre, loudness, and duration. Common terms used to discuss particular pieces include melody which is a succession of notes heard as some sort of unit, chord which is a simultaneity of notes heard as some sort of unit, chord progression which is a succession of chords, simultaneity, succession, harmony which is the relationship between two or more pitches, counterpoint which is the simultaneity and organization of different melodies, and rhythm which is the organization of the durational aspects of music **Transforming Pedagogies**

Through Engagement with Learners, Teachers and Communities Dat Bao, Thanh Pham, 2021-06-12 This book identifies three types of influential forces that pose challenges to innovations: socio-cultural dynamics, teacher individuality, and local circumstances. It uses languages, cultural traits, and intellectual heritages in the Asia Pacific region as an example to show the resistance to Western-based pedagogies due to disparities between the innovations and these local heritages. It reveals personal and professional values that teachers hold and how these values while seemingly supporting creative ideologies happen to prevent them from incorporating innovations in their practices. The book discusses how informal educational activities and services that a society possesses could impede pedagogical innovations. There is therefore a need for institutions and educators to develop a positive relationship between these phenomena and teaching innovations.

Conquered Conquerors Danilo Verde, 2020-12-01 The first comprehensive study of the Song of Songs' use of military metaphors. Although love transcends historical and cultural boundaries, its conceptualizations, linguistic expressions, and literary representations vary from culture to culture. In this study, Danilo Verde examines love through the military imagery found throughout the Song's eight chapters. Verde approaches the military metaphors, similes, and scenes of the Song using cognitive metaphor theory to explore the overlooked representation of love as war. Additionally, this book investigates how the Song conceptualizes both the male and the female characters, showing that the concepts of masculinity and femininity are tightly interconnected in the poem. *Conquered Conquerors* provides fresh insights into the Song's figurative language and the conceptualization of gender in biblical literature **Technological Animation in Classical Antiquity** Tatiana Bur, Maria

Gerolemou, Isabel Ruffell, 2024-09-24 The persistent desire to animate inanimate objects has been a recurring theme in European culture dating back to ancient Greek and Roman times *Technological Animation in Classical Antiquity* aims to establish for the first time the significance of this aspiration and its practical realization within Greek and Roman societies While certain aspects of this narrative have been explored previously this study shifts the focus to place technological animation at the forefront The sixteen chapters examine the tangible existence of such devices across various media and considers their roles in diverse contexts delving into the reciprocal relationship between technological and material realities and its influence on the concept of animation and vice versa By adopting this perspective technological animation not only provides a new understanding of the processes behind animation but also lends a fresh perspective to the animated artifact In contrast to other types of animation where the technologically animated artifact is often dismissed as a perceptual error induced for instance by rhetoric or magic this study separates technological animation from notions of rhetorical or magical skills theurgy or divine intervention Specifically it concentrates on a subset of artificial animation solely produced through technical procedures exploring how various motive forces actively contributed to giving objects agency and impacting their viewers illuminating how the material conditions of the artifacts themselves played a role in the process of technological animation whether through the distinctive materiality of bronze or the design of a statuette's hinge Poetry, Music, and Sound Art / Lyrik, Musik und Klangkunst Rebecka Dürr, Kira Henkel, Vadim Keylin, 2025-11-13 This book examines the evolving medial entanglements between poetry music and sound in the digital age foregrounding the complex interrelations between textuality vocality and sonic materiality Drawing on perspectives from literary sound studies intermediality theory and word and music studies the contributors explore contemporary poetic practices that engage with music and sound beyond conventional musico literary genres The phenomena examined here range from recent transformations of traditional oral poetry and the art song to innovative intermedial formats such as poetry audiowalks and spoken music The book highlights the impact of digital technologies on musico poetic forms tracing how contemporary practices challenge traditional genre boundaries and reconfigure listening as an integral component of poetic experience By bridging historical perspectives with emerging sound cultures this collection offers new insights into the mediality of poetry and its intersections with music and sound art *Animals in Ancient Greek Religion* Julia Kindt, 2020-07-29 This book provides the first systematic study of the role of animals in different areas of the ancient Greek religious experience including in myth and ritual the literary and the material evidence the real and the imaginary An international team of renowned contributors shows that animals had a sustained presence not only in the traditionally well researched cultural practice of blood sacrifice but across the full spectrum of ancient Greek religious beliefs and practices Animals played a role in divination epiphany ritual healing the setting up of dedications the writing of binding spells and the instigation of other magical means Taken together the individual contributions to this book illustrate that ancient Greek religion constituted a triangular symbolic

system encompassing not just gods and humans but also animals as a third player and point of reference Animals in Ancient Greek Religion will be of interest to students and scholars of Greek religion Greek myth and ancient religion more broadly as well as for anyone interested in human animal relations in the ancient world
