Hellfire And Herring Christopher Rush,2011-05-26 The scent of God the air was impregnated with him and his mint sweet and moth ball evangelists Just as it was with herring as you might expect in a fossilised fishing village on Scotland's repressed east coast where fishing was an act of faith and not yet a computer science industry designed to suck the last drops of life out of the sea A vivid and moving account of the author's upbringing in the 1940s and 1950s in the little fishing village of St Monans Rush returns decades later to rediscover his childhood and offers a frank account of how it was for him This evocation of a way of life now vanished demonstrates the power of the word to bring the past timelessly to life Rush writes of family village characters church and school of folklore and fishing the eternal power of the sea and the cycles of the seasons With a poet's eye he navigates the worlds of the imagination and the unknown the archetypal problems of fathers and sons and mother love and the inescapability of childhood influences far on into adult life Secret Societies of America's Elite Steven Sora,2003-02-24 An expose of the dark and critical role secret societies play within the ruling families in America and their influence on American democracy current events and world history Reveals the enormous influence secret societies still have on contemporary American life Shows how the secret Masonic cells that smuggled in the democratic ideals inspiring the American Revolution also enabled the future elite of the new society to build huge fortunes Elite and secret societies have always been a major force in the history of Western civilization The alliances formed in secret societies such as the Knights Templar the Knights of Christ and the Freemasons transcended patriotism and religious beliefs and had a powerful influence on the establishment of the United States of America While these secret associations of merchants smugglers occultists gamblers spies and slavers succeeded in freeing the United States from foreign domination the dark side is that the elite used their secret connections to further their own wealth and power These secret cells did not hesitate to sponsor the assassination of a president and even attempted to break up the union on several occasions when it was deemed expedient From the Sons of Liberty and the Essex Junto to the Ku Klux Klan secret societies have played critical roles in building the fortunes of America's elite Now Steven Sora reveals in alarming detail how secretive societies continue

to wield power even today as organizations such as Yale's Skull Bones unite America's modern ruling families as strongly as Masonic Lodges once connected the Astors Livingstons and Roosevelts Their immense power and wealth allow this elite to control America to an even greater degree than the Templars once dominated Europe

In the Beginning: Hijacking of the Religion of God Sami M. El-Soudani, 2009-01-05 Preface It was shortly after I had graduated from the University of Cambridge in 1980 with a PhD Degree specializing in fracture mechanics and failure analysis of materials and structures that I discovered the dire need for this book This undertaking began to take shape in the early 1980s with the Middle East aflame devastated by what some viewed as a holy war and with millennialists prophesying the end of days by the year 2000 C E After publishing and co-authoring 87 scientific and industrial reports and technical papers many of which were in national and international magazines on the subject of failure analysis of metals and fracture mechanics of aircraft structures I came to realize that consequences of failures of the human spirit are far more devastating than failures of metals and aircraft structures But now at the outset of the 21st century the world is still experiencing turmoil and devastation by wars spreading like wildfire with Jews Christians and Moslems at each other's throats in seemingly never ending battles and ugly strife Some call it war on terror others speak of wars of clashing cultures crusades jihad etc etc etc One can't help but wonder how this saga of 99% misery and 1% heroism will ever come to an end Only the gullible would attempt to explain the ongoing world conflict among People of the Book Jews Christians and Moslems based on the course of events during the past few years or even the past few decades This is where this book comes in with a rigorous rationalized and hopefully convincing critical assessment of a never before explored most innate aspect of the human nature and that is its obsession with hijacking of the religion of God For better understanding of the root cause of the ongoing conflict among People of the Book who are supposed to be worshipping the same God we need to take a step back take a deep breath and reflect rationally while ignoring all rhetoric and emotional bias in researching the past three thousand years of religious

history And this is exactly what I did in writing this three volume book More specifically this book is addressing the religion of God to whom every human being from among the so called People of the Book today turns in prayer Whether soldiers or civilians when they are caught in the midst of the ongoing grisly and devastating wars some would pray to Yahweh others call upon Jesus Christ while Moslem brethren whisper the name of Allah upon taking their last breath Who is that God And why is He so shrouded with mystery Is He truly One and the Same God for all these people Or are we suffering from some self delusions and possibly hallucinations that may be the senseless products of our ancient religious fabrications and mythmaking Going back in time three thousand years brings us to one very special night when God was said to have come down in person onto Mount Sinai to have a close encounter with human beings through direct speech This three volume book examines the course of religious events from that magic and apocalyptic moment onwards till this day It took me twenty years of research to show that men who practiced hijacking long before they had wings have been quite active over the past three thousand years engaging in the lucrative business of hijacking the religion of God All three religious persuasions Judaism Christianity and Islam suffered the dire consequences of miserably failing to heed the words of our Merciful and Patient God No irony intended here in calling it a business and indeed a lucrative one because it brings the hijackers power enormous wealth and often glory all of which in the sight of God translate respectively into arrogance greed and most certainly infamy In developing the extensive critical review of religion presented herein detailing the respective histories of the selected three religious persuasions Jud *Christ Actually* James Carroll,2014-11-13 A New York Times bestselling and widely admired Catholic writer explores how we can retrieve transcendent faith in modern times Critically acclaimed and bestselling author James Carroll has explored every aspect of Christianity faith and Jesus Christ except this central one What can we believe about and how can we believe in Jesus in the twenty first century in light of the Holocaust and other atrocities of the twentieth century and the drift from religion that followed What Carroll has discovered through decades of writing and lecturing is that he is far from alone in clinging to a received memory of Jesus that separates him from his crucial identity as a Jew and therefore as a human Yet if Jesus was not taken as divine he would be of no interest to us What can that mean now Paradoxically the key is his permanent Jewishness No Christian himself Jesus actually transcends Christianity Drawing on both a wide range of scholarship as well as his own acute searching as a believer Carroll takes a fresh look at the most familiar narratives of all Matthew Mark Luke and John Far from another book about the historical Jesus he takes the challenges of science and contemporary philosophy seriously He retrieves the power of Jesus profound ordinariness as an answer to his own last question what is the future of Jesus Christ as the key to a renewal of faith *Conspiracies and Secret Societies* Brad Steiger,Sherry Hansen Steiger,Kevin Hile,2022-09-27 The invisible world of influence and power revealed Hidden agendas uncovered An examination of over 250 current and historical conspiracies secret cabals and powerful groups Claims and counterclaims Stunning allegations Suppressed evidence Missing witnesses and rogue operatives Threats cover

Youth Is a State of Mind Eugene Beadle, 1998-09-1979 This book is literary archeology. A digging in Apocalyptic ground. There was great opposition to the insertion of the Apocalypse and the Song of Songs into the Bible. The arguments against them were furious and disparaging. Their hidden meanings totally eluded the theologians.

Prosecution and Punishment Robert B. Shoemaker, 1991-08-30 This book offers an assessment of the social significance of the law in pre-industrial England.
