Study Guide for Sociology : a Student's Guide to Accompany the Textbooks Sociology (1983), Second Edition and Essentials of Sociology (1983), Second Edition by Robert Hagedorn Bartle, Philip F. W, 1984 *Passing on Sociology* Charles A. Goldsmid, Everett Wilson, 1980 *Books and Pamphlets, Including Serials and Contributions to Periodicals* Library of Congress. Copyright Office, 1968 **Case Study Methods** Jacques Hamel, Stephane Dufour, Dominic Fortin, 1993-09-15

In this introduction to understanding researching and doing case studies in the social sciences Hamel outlines several differing traditions of case study research including the Chicago School of Sociology the anthropological case studies of Malinowski and the French La Play school tradition He shows how each developed changed and has been practiced over time Suggestions for the practice of case studies are made for the novice reader and an additional feature is the extensive bibliography on case study methods in social science to allow for further exploration of the topic *Social Work With African American Males* Waldo E. Johnson Jr., 2010-05-26

African American males have never fared as poorly as they do currently on a number of social indicators They are less likely to complete high school than their white male and female or African American female peers they are more likely to exhibit depressive symptoms and they have fewer sanctioned coping strategies Arguably no other group in American society has been more maligned regularly faced with tremendous odds that uniquely threaten their existence When they do receive education mental health and physical health services it is often in correctional settings They are marginalized in public policies on secondary and higher education attainment marriage and parental expectations public welfare health housing and community development Yet they remain overlooked

in health and social science research and are stereotyped in the popular media Taking a step back from the traditionally myopic view of African American males as criminals and hustlers this groundbreaking book provides a more nuanced and realistic portrait of their experiences in the world Chapter authors both established and emerging scholars of social problems relevant to African Americans offer a comprehensive overview of the social and economic data on black males to date and the significant issues that affect them from adolescence to adulthood Via in depth qualitative interviews as well as comprehensive surveys and data sets their physical mental and spiritual health and emerging family roles are considered within both individual and communal contexts Chapters cover health issues such as HIV and depression fatherhood and family roles suicide violence academic achievement and incarceration With original research and a special eye toward enhancing social work and social welfare intervention practice with this often overlooked subpopulation of American society this volume will be of great interest to researchers interested in African American issues students practitioners and policy makers
