TV Guide, 2005 **Readers' Guide to Periodical Literature** Anna Lorraine Guthrie, Bertha Tannehill, Neltje Marie Tannehill Shimer, 1910 **The Stranger's Guide to Brussels and Its Environs**, 1876 **Readers' Guide to Periodical Literature**, 1910 Battlestar Galactica Lee Fratantuono, 2026-01-30 Few television science fiction series have had the enduring appeal of the original late 1970s Battlestar Galactica. Despite lasting only one season (1978-1979), almost half a century later Battlestar remains a cultural touchstone and major influence on genre productions in a variety of media. For all its popularity, however, Battlestar remains a largely unstudied series with relatively few resources available for those interested in learning more about the show, including both its development and its afterlife. This companion is the definitive resource for fans of the series. It contains all the essential facts that fans would expect, such as plot and other details of each episode, but uniquely also explores the scholarly and philosophical influences on the series. Battlestar Galactica borrows extensively from classical mythology and biblical sources, as well as from myths and folklore associated with nation building and the timeless wonder of travel stories. In many regards, Battlestar is nothing less than an Aeneid in outer space, telling the story of how an exiled, defeated people seeks a return to their ancestral home, surmounting countless perils along the way. Fratantuono brings his expertise in classical mythology and ancient history to bear on the series. There are new interviews with stars Dirk Benedict, Lt. Starbuck, and Cathey Paine, the voice of Galactica's computer C.O.R.A. Comprehensive information is provided on series merchandise, a concise overview of the short-lived Galactica (1980), and the connection of the series to Buck Rogers in the 25th Century. There is no comparable guide available. **Battlestar Galactica: Designing Spaceships** Paul Ruditis, Mark Wright, 2021-11-16 This new book goes behind the scenes on the award-winning TV series Battlestar Galactica to discover the concepts behind the designs of dozens of spaceships. Battlestar Galactica debuted on TV in 1978 and acquired a phenomenal following, breaking new ground for TV drama and winning several awards. It returned to TV screens in 2003 in a critically acclaimed reimagined series, with Time Magazine naming it one of the 100 Best TV Shows of All Time. This behind-the-scenes guide looks at the creation of the ships in both the original and the reimagined series, including vessels of the ragtag fleet and those of the Cylon enemy. Featuring artwork from the groundbreaking first series and the 2004 reimagined series, this volume explores the art of ship creation, from the first sketches to the finished designs of the modelmakers. Covering 18 key ships from the two shows, including the Galactica itself, the Vipers, and the Cylon Raiders, the pages are packed with original concept art from designers Eric Chu, Andrew Probert, and legendary artist Ralph McQuarrie. **Reader's Guide to Periodical Literature Supplement**, 1923 **Net Guide** Kelly Maloni, 1995 **Reference Guide to Science Fiction, Fantasy and Horror** Michael Burgess, Lisa R. Bartle, 2002-12-30 An annotated list of reference works in the fields of science fiction, fantasy, and horror fiction. **Finding List of English Prose Fiction in the Chicago Public Library**, 1911 **Halliwell's Film Guide** Leslie Halliwell, John Walker, 1994 A comprehensive guide to around 20,000 of the

most enduring movies ever made including American British and foreign language films as well as movies of the silent era
