Suspect Race Causes And Consequences Of Racial Profiling:

Suspect Race Jack Glaser, 2015 In Suspect Race social psychologist and public policy expert Jack Glaser leverages a century's worth of social psychological research to provide a clear understanding of how stereotypes even those operating outside of conscious awareness or control can cause police to make discriminatory judgments and decisions about who to suspect stop question search use force on and arrest Glaser argues that stereotyping even nonconscious stereotyping is a completely normal human mental process but that it leads to undesirable discriminatory outcomes Additionally he finds evidence that racial profiling can actually increase crime and he considers the implications for racial profiling in counterterrorism Suspect Race brings to bear the vast scientific literature on intergroup stereotyping to offer the first in depth and accessible understanding of the primary cause of racial profiling and to explore implications for policy Suspect Citizens Frank R. The Ferguson Report: An Erasure Nicole Sealey, 2023-08-15 A NEW YORKER BEST BOOK OF THE YEAR A meditation on our times cast through a reconsideration of the Justice Department's investigation of the Ferguson Police Department. In August 2014, Michael Brown, a young unarmed Black man, was shot to death by a police officer in Ferguson, Missouri. What followed was a period of protests and turmoil culminating in an extensive report that was filed by the Department of Justice detailing biased policing and court practices in the city. It is a document that exposes the racist policies and procedures that have become commonplace, from disproportionate arrest rates to flagrant violence directed at the Black community. It is a report that remains as disheartening as it is damning. Now award-winning poet Nicole Sealey revisits the investigation in a book that redacts the report, an act of erasure that reimagines the original text as it strips it away. While the full document is visible in the background, weighing heavily on the language, Sealey has preserved it, giving shape and disturbing context to what remains. Illuminating what it means to live in this frightening age and what it means to bear witness. **The Ferguson Report: An Erasure** is an engrossing meditation on one of the most important texts of our time.

The Encyclopedia of Police Science Jack R. Greene, 2007 First published in 1996, this work covers all the major sectors of policing in the United States. Political events such as the terrorist attacks of September 11, 2001, have created new policing needs while affecting public opinion about law enforcement. This third edition of the Encyclopedia examines the theoretical and practical aspects of law enforcement, discussing past and present practices.

Critical Race Realism Gregory Parks, Shayne Edward Jones, W. Jonathan Cardi, 2008 A practical look at the way racial bias plays out at every level of the legal system, from witness identification and jury selection to prosecutorial behaviour, defence decisions, and the way expert witnesses are regarded. Using cutting-edge research from across the social sciences and, in particular, new understandings from psychology of the way prejudice functions in the brain, this new book includes many of the seminal writings to date along with newly commissioned pieces filling in gaps in the present literature.

Racial Profiling Brian L. Withrow, 2006 In doing so, this text becomes the most comprehensive and unbiased treatise of the racial profiling controversy available.
