Candlestick Forecasting for Investments Haibin Xie, Kuikui Fan, Shouyang Wang, 2021-03-11 Candlestick charts are often used in speculative markets to describe and forecast asset price movements. This book is the first of its kind to investigate candlestick charts and their statistical properties. It provides an empirical evaluation of candlestick forecasting. The book proposes a novel technique to obtain the statistical properties of candlestick charts. The technique, which is known as the range decomposition technique, shows how security price is approximately logged into two ranges, i.e., technical range and Parkinson range. Through decomposition-based modeling techniques and empirical datasets, the book investigates the power of and establishes the statistical foundation of candlestick forecasting.

The Value Investors Ronald Chan, 2021-02-09 The latest edition of the popular collection of in-depth portraits of extraordinary value investors featuring new profiles and updates. The second edition of *The Value Investors* presents a collection of investing legend profiles from around the world. Chapters explore the investors' backgrounds, cultures, and personal stories and reveal how life experiences have shaped their investment strategies and mindsets. This fascinating book shows you that value investing is a dynamic, constantly changing strategy which, when properly implemented, can provide significant, sustainable benefits. Although the investors profiled come from a diverse range of geographic regions and socio-economic, cultural, and educational backgrounds, they share similar personality traits, temperaments, and investment philosophes. Thoroughly revised and expanded, the book provides relevant updates on the professional and personal experiences of the investors since the first edition's publication. Complementing the original profiles are several new chapters featuring established value investors including Howard Marks, as well as rising personalities and fund managers such as Ivaro Guzmán de Lázaro and Fernando Bernad Marrase. Author Ronald Chan, founder of Hong Kong-based investment management Chartwell Capital Limited, highlights how and why the value investors have consistently beaten the stock market through the years. This book covers multiple generations.
