Kenneth Moore's Fourth Edition of Effective Instructional Strategies From Theory to Practice provides thorough coverage of the strategies and essential skills that every teacher needs to know. This text applies the latest research findings and useful classroom practices to the instructional process by presenting a Theory to Practice approach to instruction emphasizing the intelligent use of teaching theory and research to improve classroom instruction. Logically and precisely providing information about how to be an effective classroom teacher this text has been carefully designed to maximize instructional flexibility and to model

established principles of instruction It was further designed to expand the pedagogical teaching knowledge of teachers and their instructional repertoires Project-Based Learning Applied to the Language Classroom Juliana Franco Tavares/ Louise Emma Potter,2018-03-05 In Project Based Learning Applied to the Language Classroom the authors propose a way to develop PBL in the language classrooms taking into account all of the obstacles and specifics involved in teaching a foreign language It is about teaching English as a second or foreign language using Project Based Learning PBL We approach this combination because many people seem to think about implementing PBL in their language classes and ask questions about how to do it but feel that there aren't enough materials based on this methodology In fact most researchers and writers we have come across discuss the applications of PBL in the students mother tongue to subjects such as Math History Literature Social Studies and Science However there are few published works about the specifics of PBL in foreign language classes Besides it seems obvious to us that the main difficulty in developing projects in a second or foreign language lies exactly on the fact that communication may be hindered when students do not have enough knowledge in the target language
