perspective adapting to and accommodating changing flight services by incumbent carriers as well as new entrant services has been a key focus In recent years offering more cost effective solutions to retain or encourage new services in the face of service reductions has become a key focus Airport operator interests in common use have been heightened by the potential for achieving a reasonable balance between airline and airport operator interests The implications of transitioning from a traditional model of airline facility use and leasing focused on dedicated facilities to common use has elicited varying and often conflicting perceptions of benefit and cost *Microcomputer User's Handbook* Dennis Longley, Michael
