Teleny Or The Reverse Of The Medal Valancourt:

Studies in the Victorian and Neo-Victorian Novel Adrian Radu, 2024-02-29 Readers of the nineteenth century novel expected literature to be a form journalism and fictional history They wanted to read about easily identifiable situations with a chronological straightforward and easily discernible development of plot familiar backgrounds and credible characters About a hundred years later the Victorian novel became the great tradition omnipresent and reliable However today the age and the context are different and novels need more substance including such themes as memory race and empire sex and science spectrality and the heritage industry or key issues like gender sexuality and postmodernism All these elements are considered Neo Victorian which in spite of their novelty do point to a certain Victorian anchor This volume contains ten studies the substance of which is the analysis of novels that according to their date of publication are products of the Victorian and Neo Victorian periods as defined above The authors investigate and discuss Victorian roots and characteristics preserved or recycled Victorian themes Neo Victorian characters and motifs or any other characteristics that may label them as Victorian or Neo Victorian products

Oscar Wilde and the Simulacrum Giles Whiteley, 2017-07-05 Oscar Wilde is more than a name more than an author From precocious Oxford undergraduate to cause celebre of the West End of the 1890s to infamous criminal the proper name Wilde has become an event in the history of literature and culture Taking Wilde seriously as a philosopher in his own right Whiteley's groundbreaking book places his texts into their philosophical context in order to show how Wilde broke from his peers and in particular from idealism and challenges recent neo historicist readings of Wilde which seem content to limit his irruptive power Using the paradoxical concept of the simulacrum to resituate Wilde's work in relation to both his precursors and his contemporaries Whiteley's study reads Wilde through Deleuze and postmodern philosophical commentary on the simulacrum In a series of striking juxtapositions Whiteley challenges us to rethink both Oscar Wilde's aesthetics and his philosophy to take seriously both the man and the mask His philosophy of masks is revealed to figure a truth of a different kind the simulacra through which Wilde begins to develop and formulate a mature philosophy that constitutes an ethics of joy

Sounding Bodies Shannon Draucker, 2024-07-01 Can the concert hall be as erotic as the bedroom Many Victorian writers believed so In the mid nineteenth century acoustical scientists such as Hermann von Helmholtz and John Tyndall described music as a set of physical vibrations that tickled the ear excited the nerves and precipitated muscular convulsions In turn writers from canonical figures such as George Eliot and Thomas Hardy to New Women novelists like Sarah Grand and Bertha Thomas to anonymous authors of underground pornography depicted bodily sensations and experiences in unusually explicit ways These writers used scenes of music listening and performance to intervene in urgent conversations about gender and sexuality and explore issues of agency pleasure violence desire and kinship *Sounding Bodies* shows how both classical music and Victorian literature while often considered bastions of conservatism and repression represented powerful sites for feminist and queer politics
