Unirvesity Of Limpopo Application Forms For 2014:

Reflections of South African Student Leaders: 1994 to 2017 Ntokozo Bhengu, Denyse Webbstock, 2020-05-13 Reflections of South African Student Leaders 1994 2017 brings together the reflections of twelve former SRC leaders from across the landscape of South African universities. Reviews of the previous volume 1981 2014 suggested that it contributed significantly to a better understanding of the stringent demands of visionary and transformative leadership required by university leaders in the fastchanging and increasingly complex public higher education sector. This volume is based on comprehensive interviews with former student leaders each of whom provided a personal account in their own words of their experience in the position of student leadership. The interviewees are from different backgrounds and of diverse political persuasions. The book is important for current and future leaders of higher education institutions as it provides insights into the thinking, aspirations, desires, fears, and modus operandi of student leaders. Such insight can contribute to developing and implementing appropriate strategies for achieving meaningful and constructive engagement with current and future student leaders.

Intelligent Computing and Optimization Pandian Vasant, Vladimir Panchenko, Elias Munapo, Gerhard-Wilhelm Weber, J. Joshua Thomas, Rolly Intan, Mohammad Shamsul Arefin, 2025-01-09 This book of Springer Nature is another proof of Springer's outstanding and greatness on the lively interface of Smart Computational Optimization, Green Infrastructure, Innovative Modeling, and Deep Learning Architectures. It is a Master Piece of what our community of Academics and Experts can provide when an Interconnected Approach of Joint Mutual and Meta Learning is supported by Holistic Operational Research and Experience of the World Leader Springer Nature. The 7th edition of International Conference on Intelligent Computing and Optimization took place at Baitong Hotel Resort on October 26-27, 2023, with tremendous support from the global research scholars across the planet. Objective was to celebrate Global Research Quality with Compassion and Wisdom with researchers, scholars, experts, and investigators in Intelligent Computing and Optimization across the globe to share knowledge, experience, and innovation, a marvelous opportunity for discourse and mutuality by novel research invention and creativity. This proceedings book of the 7th ICO 2023 is published by Springer Nature Creativity Label of Inspiration. The Cambridge Handbook of Foreign Judges on Domestic Courts Anna Dziejic, Simon N. M. Young, 2023-11-09 Foreign judges sit on domestic courts in over fifty jurisdictions worldwide. They serve on ordinary courts including apex and constitutional courts as well as specialist courts such as international commercial courts and hybrid criminal tribunals. This Handbook presents the first global comparative study of this long-standing diverse and evolving practice from colonial precedents to new forms of foreign judging in contemporary conditions of globalisation. Chapters by scholars of law, politics, and history and reflections by judges themselves provide detailed information and critical analysis of foreign judging across Africa, Asia, the Caribbean, Europe, the Middle East, and the Pacific. The chapters examine the notion and relevance of foreignness, rationales for foreign judges, and the implications for judicial identity, adjudication, independence, and accountability. Focusing on an

underexplored issue that features mainly in small states and jurisdictions of the Global South this Handbook challenges assumptions and expands knowledge about courts and judges

Genetic Afterlives

Noah Tamarkin, 2020-09-11 In 1997 M E R Mathivha an elder of the black Jewish Lemba people of South Africa announced to the Lemba Cultural Association that a recent DNA study substantiated their ancestral connections to Jews Lemba people subsequently leveraged their genetic test results to seek recognition from the post apartheid government as indigenous Africans with rights to traditional leadership and land retheorizing genetic ancestry in the process In Genetic Afterlives Noah Tamarkin illustrates how Lemba people give their own meanings to the results of DNA tests and employ them to manage competing claims of Jewish ethnic and religious identity African indigeneity and South African citizenship Tamarkin turns away from genetics researchers results that defined a single story of Lemba peoples true origins and toward Lemba understandings of their own genealogy as multivalent Guided by Lemba people s negotiations of their belonging as diasporic Jews South African citizens and indigenous Africans Tamarkin considers new ways to think about belonging that can acknowledge the importance of historical and sacred ties to land without valorizing autochthony borders or other technologies of exclusion

Linguistically Diverse Immigrant and

Resident Writers Christina Ortmeier-Hooper, Todd Ruecker, 2016-07-15 Spotlighting the challenges and realities faced by linguistically diverse immigrant and resident students in U S secondary schools and in their transitions from high school to community colleges and universities this book looks at programs interventions and other factors that help or hinder them as they make this move Chapters from teachers and scholars working in a variety of contexts build rich understandings of how

high school literacy contexts policies such as the proposed DREAM Act and the Common Core State Standards bridge programs like Upward Bound and curricula redesign in first year college composition courses designed to recognize increasing linguistic diversity of student populations affect the success of this growing population of students as they move from high school into higher education Mathematics Education in Africa Brantina Chirinda,Kakoma Luneta,Alphonse Uworwabayeho,2022-11-28 This book is about mathematics teaching and learning in Africa during the Fourth Industrial Revolution The Fourth Industrial Revolution 4IR has evolved to utilize new technologies in the teaching and learning of Mathematics It is characterized by the fusion of the biological physical and digital worlds and embodies a new era of innovation in mathematics education leading to the rapid emergence of new technologies for mathematics teaching and learning Because 4IR in mathematics education is happening differently in various parts of Africa the authors of the various chapters in this volume have positioned their work in their respective local contexts The chapters address a wide variety of interests concerns and implications regarding 4IR and Mathematics Education in Africa Additionally a number of chapters address teaching mathematics in the context of the COVID 19 pandemic that has gripped the world Other chapters discuss the implications of inequalities in Africa that effect mathematics education during 4IR Chapters also incorporate arguments observations and suggestions to improve and transform the teaching and learning of mathematics in Africa during the 4IR This book highlights a new era of innovation in mathematics education in the context of the Fourth Industrial Revolution leading to the rapid emergence of new technologies in mathematics teaching and learning It is a valuable resource for graduate students people with research interests in the fourth industrial revolution and mathematics educators at any level including all mathematics teachers mathematics education curriculum designers and policymakers **Traditional Leaders in a Democracy** Skosana, Dineo,Buthelezi, Mbongiseni,2019-03-31 Post 1994 South Africa s traditional leaders have fought for recognition and positioned themselves as major players in the South African political landscape Yet their role in a democracy is contested with leaders often accused of abusing power disregarding human rights expropriating resources and promoting tribalism Some argue that democracy and traditional leadership are irredeemably opposed and cannot co exist Meanwhile shifts in the political economy of the former bantustans the introduction of platinum mining in particular have attracted new interests and conflicts to these areas with chiefs often designated as custodians of community interests This edited volume explores how chieftancy is practised experienced and contested in contemporary South Africa It includes case studies of how those living under the authority of chiefs in a modern democracy negotiate or resist this authority in their respective areas Chapters in this book are organised around three major sites of contest leadership land and law *Extractive Industry Indigenisation in Zimbabwe* Kennedy Manduna,2025-09-25 This book explains how and why Zimbabwe s extractive industry Indigenisation over promised its benefits yet under delivered upon implementation This book traces the history of uneven development in Zimbabwe from the initial days of colonialism to the present using the extractive

industry as the unit of analysis to carve out a granular and empirical analysis of the preponderance of transnational corporate control and ownership in the country

Indigenisation of Zimbabwe's extractive industries was intended to address mining inequalities by transferring wealth from rich non Indigenous mining capital to disadvantaged Indigenous citizens and communities This policy however was a response to political economic and social crises posed by the international isolation of Zimbabwe's government following the controversial Fast Track Land Reform Programme in 2000-2003 An intervention therefore which promised to address inequalities has thus been hampered by corruption co-optation and collusion which has led to it not only failing to address uneven development but in actual fact worsening the situation By examining the hidden structures and infrastructures of power capital and minerals and placing extractive industry Indigenisation in capitalism this book makes a crucial scholarly contribution to the renewed and burgeoning debates around the resurgence of resource nationalism in general and the struggle for economic sovereignty in particular This book steers readers more broadly to look for new and diversified ways of empowering Indigenous populations and their communities through mining Indigenisation in ways that do not threaten economic and political stability This book will be of great interest to students and scholars of the extractive industries natural resource management African politics and African development

Routledge Handbook of African Media and Communication Studies Winston Mano,viola c. milton,2021-02-12 This handbook comprises fresh and incisive research focusing on African media culture and communication The chapters from a cross section of scholars dissect the forces shaping the field within a changing African context It adds critical corpora of African scholarship and theory that places the everyday worlds needs and uses of Africans first The book goes beyond critiques of the marginality of African approaches in media and communication studies to offer scholars the theoretical and empirical toolkit needed to start building critical corpora of African scholarship and theory that places the everyday worlds needs and uses of Africans first Decoloniality demands new epistemological interventions in African media culture and communication and this book is an important interlocutor in this space In a globally interconnected world changing patterns of authority and power pose new challenges to the ways in which media institutions are constituted and managed as well as how communication and media policy is negotiated and the manner in which citizens engage with increasing media opportunities The handbook focuses on the interrelationships of the local and the global and the concomitant consequences for media practice education and citizen engagement in today's Africa Altogether the book foregrounds convivial epistemologies relevant for locating African media and communication in the pluriverse This handbook is an essential read for critical media communications cultural studies and journalism scholars

Grid-locked African Economic Sovereignty Victor Warikandwa,Artwell Nhemachena,2019-02-06 The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and

economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft robbery looting and dispossession of Africans this book goes beyond the simplistic arguments that Euro America developed due to the industrial revolutions International Handbook of Emotions Claude-Hélène Mayer, Elisabeth Vanderheiden, 2025-05-10 Volume 2 of this two volume handbook extends the foundational understanding of emotional well being through the lens of positive psychology into the realms of cultural diversity societal impacts and the influence of technology This volume offers an in depth examination of the societal impact of emotions cultural interpretations and the emerging significance of digital and robotic interactions with emotions It encompasses a wide range of topics including the effects of global crises on emotional well being the role of art and literature in understanding emotions and the future of emotional intelligence in the age of digital technology Studies featured in this Volume 2 provide insight into emotional experiences across diverse cultures the resilience of immigrants and refugees and the psychological dynamics of collective behaviour alongside considerations of how technology is reshaping our emotional lives The volume stands as a critical academic resource enriching the discourse on the global and transcultural dimensions of emotional well being It highlights the pivotal role of cultural and technological considerations in advancing our understanding of emotions and sets a new benchmark for research and practice in the field Aimed at scholars researchers and practitioners in psychology cultural studies and technological innovation this volume also addresses educators policymakers and anyone with a keen interest in understanding the complex interplay between emotion culture and technology By bridging gaps between disciplines this volume fosters a more comprehensive and nuanced understanding of emotional well being across different cultural contexts and technological environments It prompts interdisciplinary dialogue offering evidence based insights for mental health practices educational strategies and policymaking Emotion science has progressed enormously in the last decade For those wishing to get insight into the depth and breadth of this progress this is a terrific edited 2 volume overview brought together by two internationally recognised emotion researchers It takes a biopsychosocial approach exploring the multiple dimensions of emotion science and how it can be applied to many different aspects of human life from therapy through to the organisation of communities It will be a must have book for anyone interested in understanding the complexities of emotions Prof Paul Gilbert PhD FBPsS OBE Centre for Compassion Research and Training College of Health Psychology and Social Care University of Derby United Kingdom *Science Cultures in a*

Diverse World: Knowing, Sharing, Caring Bernard Schiele, Xuan Liu, Martin W. Bauer, 2021-09-13 Science and technology culture is now more than ever at the very heart of the social project and all countries to varying degrees participate in it raising scientific literacy improving the image of the sciences involving the public in debates and encouraging the young to pursue careers in the sciences Thus the very destiny of any society is now entwined with its ability to develop a genuine science and technology culture accessible for participation not only to the few who by virtue of their training or trade work in the science and technology fields but to all thereby creating occasions for society to debate and to foster a positive dialogue about the directions of change and future choices This book organized on the theme of knowing sharing caring new insights for a diverse world which was derived from the observation that globalization rests upon diversity diversity of contexts publics research strategies and new innovating practices and aims to stimulate exchanges discussions and debates to initiate a reflection conducive to decentring and to be an opportunity for enrichment by providing the reader with means to achieve the potentialities of that diversity through a comparison of the visions that underpin the attitudes of social actors the challenges they perceive and the potential solutions they consider Thus this book aims first and foremost to raise questions in such a manner that readers so stimulated will feel compelled to contribute and will do so In this spirit however significant the results presented and shared are less important than the questions they seek to answer How are we to rethink the diffusion the propagation and the sharing of scientific thought and knowledge in an ever more complex and diverse world What to know What to share How do we do it when science is broken down across the whole spectrum of the world s diversity The book is recommended for those who are interested in science communication and science cultures in the new media era in contemporary social dynamics and in the evolution of the role of the state and of institutions It is also an excellent reference for researchers engaging in science communication public understanding of science cultural studies science and technology museum science society relationship and other fields of humanities and social sciences Metal Oxide-Based
