Heritage Stone J.T. Hannibal,B.J. Cooper,S. Kramar,2020-11-18 Heritage stones are building and ornamental stones that have special significance in human culture The papers in this volume discuss a wide variety of such materials including stones from Europe Asia North and South America Africa and Australia Igneous basalt porphyry granite sedimentary sandstone limestone and metamorphic marble quartzite gneiss soapstone slate stones are featured These have been utilized over long periods of time for a wide range of uses contributing to the historic fabric of the built environment Many of these stones are of international significance and so are potential Global Heritage Stone Resources that is stones that have the requisite qualities for international recognition by the Heritage Stones Subcommittee of the International Union of Geological Sciences The papers bring together diverse information on these stones ranging from their geological setting and quarry locations to mechanical properties current availability and uses over time As such the papers can serve as an entry into the literature on these important stones The walk without limbs: Searching for indigenous health knowledge in a rural context in South Africa Gubela Mji,Melanie Alperstein,Nondwe Bongokazi Mlenzana,Karen Galloway,Chioma Ohajunwa,Lieketseng Ned,Ntombekhaya Tshabalala,2019-12-12 In a country as diverse as South Africa sickness and health often mean different things to different people so much so that the different health definitions and health belief models in the country seem to have a profound influence on the health seeking behaviour of the people who are part of our vibrant multicultural society This book is concerned with the integration of indigenous health knowledge IHK into the current Western orientated Primary Health Care PHC model The first section of the book highlights the challenges facing the training of health professionals using a curriculum that is not drawing its knowledge base from the indigenous context and the people of that context Such professionals will later recognise that they are walking without limbs in matters pertaining to health The area that was chosen for conducting the research was KwaBomvana in Xhosa Elliotdale Eastern Cape province South Africa The people who reside there are called AmaBomvana The area where the Bomvana peoples reside is served by Madwaleni Hospital and eight surrounding clinics Qualitative ethnographic feminist methods of data collection supported the research done for Section 1 of the book Section 2 comprises the translation and implementation of PhD study outcomes and had contributions from various researchers In the critical research findings of the PhD study older Xhosa women identify the inclusion of social determinants of health as vital to the health problems they managed within their homes For them each

disease is linked to a social determinant of health and the management of health problems includes the management of social determinants of health For them it is about the health of the home and not just about the management of disease They believe that healthy homes make healthy villages and that the prevention of the development of disease is related to the strengthening of the home Health and illness should be seen within both physical and spiritual contexts without health there can be no progress in the home When defining health the older Xhosa women add three critical components to the WHO health definition namely food security healthy children and families and peace and security in their villages Prof Mji further proposes that these three elements should be included in the next revision of the WHO health definition because they are not only important for the Bomvana people where the research was conducted but also for the rest of humanity In light of the promise of National Health Insurance and the revitalisation of PHC this book proposes that these two major national health policies should take cognisance of the IHK utilised by the older Xhosa women In addition to what this research implies these policies should also take note of all IHK from the indigenous peoples of South Africa Africa and the rest of the world and that there should be a clear plan as to how the knowledge can be supported within a health care systems approach

Curriculum Development and Online Instruction for the 21st Century Fudge, Tamara Phillips, Ferebee, Susan Shepherd, 2021-06-25 The world of education has undergone major changes within the last year that have pushed online instruction to the forefront of learning Thanks to the COVID 19 pandemic online learning has become paramount to the continued and uninterrupted teaching of students and has forced students and teachers alike to adjust to an online learning environment Though some have already returned to the traditional classroom or plan to very soon others have begun to appreciate the value of online education initiatives that had previously been discussed but never acted upon as they have been in the past year With plenty of positive and negative aspects online learning is a complex issue with numerous factors to consider It is an issue that must be studied and examined in order to improve in the future Curriculum Development and Online Instruction for the 21st Century examines the issues and difficulties of online teaching and learning as well as potential solutions and best practices This book includes an examination on the value of teaching fully via the internet as well as the challenges inherent in the training of teachers to teach in online environments While addressing key elements of remote learning such as keeping student data safe as well as methods in which to engage students this book covers topics that include assessment tools teaching deaf students web technology and standardized curricula Ideal for K 12 teachers college faculty curriculum developers instructional designers educational software developers administrators academicians researchers and students this book provides a thorough overview of online education and the benefits and issues that accompany it Recent Advances in Environmental Science from the Euro-Mediterranean and Surrounding Regions Amjad Kallel, Mohamed Ksibi, Hamed Ben Dhia, Nabil Khélifi, 2017-12-12 This volume includes the papers presented during the 1st Euro Mediterranean Conference for Environmental Integration EMCEI which was held in Sousse Tunisia in November 2017

This conference was jointly organized by the editorial office of the Euro Mediterranean Journal for Environmental Integration in Sfax Tunisia and Springer MENA Publishing Program in Germany. It aimed to give a more concrete expression to the Euro Mediterranean integration process by supplementing existing North South programs and agreements with a new multilateral scientific forum that emphasizes in particular the vulnerability and proactive remediation of the Euro Mediterranean region from an environmental point of view. This volume gives a general and brief overview on current research focusing on emerging environmental issues and challenges and its applications to a variety of problems in the Euro Mediterranean zone and surrounding regions. It contains over five hundred and eighty carefully refereed short contributions to the conference. Topics covered include 1 innovative approaches and methods for environmental sustainability 2 environmental risk assessment bioremediation ecotoxicology and environmental safety 3 water resources assessment planning protection and management 4 environmental engineering and management 5 natural resources characterization assessment management and valorization 6 intelligent techniques in renewable energy biomass wind waste solar 7 sustainable management of marine environment and coastal areas 8 remote sensing and GIS for geo environmental investigations 9 environmental impacts of geo natural hazards earthquakes landslides volcanic and marine hazards and 10 the environmental health science natural and social impacts on Human health. Nanomaterial Biointeractions at the Cellular, Organismal and System Levels Niles Sharma, Shivendra Sahi, 2021-03-26 The range of nanomaterial applications has expanded recently from catalysis electronics and filtration to therapeutics diagnostics agriculture and food because of unique properties and potentials of different nanoparticles and nanomaterials Research shows that these exquisite particles can interact with an organism at the cellular physiological biochemical and molecular levels However our knowledge of how they affect these changes selectively or generally in diverse organism or ecosystems is very limited and far from satisfactory Data indicate that the biological function largely depends on the shape size and surface characteristics of the nanoparticles used besides life cycle stages of an organism Therefore this compilation will focus on the body of work carried out by distinguished investigators using diverse nanomaterials and plant and animal species This book includes specific case studies as well as general review articles highlighting aspects of multilayered interactions and targets not only research and academic scholars but also the concerned industry and policy makers as well

Sustainable Development Goals for Society Vol. 2 Godwell Nhamo, David Chikodzi, Kaitano Dube, 2021-06-26 This book profiles various cases that are emerging in addressing global challenges in the context of SDGs for society in the era of climate change and covers case studies of projects being undertaken to tackle

biodiversity food security climate change energy and water security The book is written by 37 authors and will appeal to various stakeholders including academics working within the identified thematic areas policy planners development agencies governments and United Nations agencies The adoption of the Sustainable Development Goals SDGs in 2015 ushered a new era in the global development agenda as the world transitioned from the Millennium Development Goals MDGs The new era of SDGs that are all inclusive unlike the MDGs with the focus now being on ensuring human success that is predicated on environmental protection The year 2020 marked five years post the adoption of the SDGs with increased calls for stock taking of progress made amid strong calls for a decade of action to accelerate the delivery of the SDGs by 2030 These calls have been louder now given the impact of the COVID 19 pandemic which reset the global economy and increased intensity of extreme weather events across the world Since climate change has emerged as one of the biggest threats to the achievement of the SDGs there has been growing concerns on its impact on biodiversity loss and the extinction of some species There are also concerns regarding increased food insecurity at the household level in some parts of the world particularly in Asia and Africa With the demand for climate change action on the increase there have also been growing calls for the big carbon emitters to drastically cut their emissions and invest in clean energy to save the planet by following development pathways making emissions stay under the 1.5°C increase in temperature

Universities as Living Labs for Sustainable

Development Walter Leal Filho, Amanda Lange Salvia, Rudi W. Pretorius, Luciana Londero Brandli, Evangelos Manolas, Fatima Alves, Ulisses Azeiteiro, Judy Rogers, Chris Shiel, Arminda Do Paco, 2019-04-30 This book fills an important gap in the literature and presents contributions from scientists and researchers working in the field of sustainable development who have engaged in dynamic approaches to implementing sustainability in higher education It is widely known that universities are key players in terms of the implementation and further development of sustainability with some having the potential of acting as living labs in this rapidly growing field Yet there are virtually no publications that explore the living labs concept as it relates to sustainability and in an integrated manner The aims of this book which is an outcome of the 4th World Symposium on Sustainable Development at Universities WSSD U 2018 held in Malaysia in 2018 are as follows i to document the experiences of universities from all around the world in curriculum innovation research activities and practical projects as they relate to sustainable development at the university level ii to disseminate information ideas and experiences acquired in the execution of projects including successful initiatives and good practice iii to introduce and discuss methodological approaches and projects that seek to integrate the topic of sustainable development in the curricula of universities and iv to promote the scalability of existing and future models from universities as living labs for sustainable development The papers are innovative cross cutting and many reflect practice based experiences some of which may be replicable elsewhere Also this book prepared by the Inter University Sustainable Development Research Programme IUSDRP and the World Sustainable Development Research and Transfer Centre WSD RTC reinforces the role played by universities as living labs for

sustainable development
