Monsters Derrick Jensen, 2017-10-01 *Monsters* is an illustrated collection of wild weird and whimsical tales with a twist These stories are not about mythical creatures here the creatures speak for themselves There s an orc who hates Tolkien a young demon awash in teenage angst an angel abandoned by Jesus who finds the Fates Jensen creates a world both delicately dreamlike and all too real where the villain is sometimes the victim and evil is not always what we thought If stories teach us how to be human then the stories in *Monsters* are the ones we need now These are fractured fairy tales for grown ups where the roots of sadism are laid bare and the horrors of human supremacism are firmly faced But as in all of Jensen s work love is both always possible and also a call to action By turns macabre melancholy and magical these stories and their accompanying images will leave you wondering who the real
