**Conspiracies of Conspiracies** Thomas Milan Konda, 2019-03-15 It's tempting to think that we live in an unprecedentedly fertile age for conspiracy theories with seemingly each churn of the news cycle bringing fresh manifestations of large scale paranoia But the sad fact is that these narratives of suspicion and the delusional psychologies that fuel them have been a constant presence in American life for nearly as long as there's been an America In this sweeping book Thomas Milan Konda traces the country's obsession with conspiratorial thought from the early days of the republic to our own anxious moment **Conspiracies of Conspiracies** details centuries of sinister speculations from antisemitism and anti Catholicism to UFOs and reptilian humanoids and their often incendiary outcomes Rather than simply rehashing the surface eccentricities of such theories Konda draws from his unprecedented assemblage of conspiratorial writing to crack open the mindsets that lead people toward these self sealing worlds of denial What is distinctively American about these theories he argues is not simply our country's homegrown obsession with them but their ongoing prevalence and virulence Konda proves that conspiracy theories are no harmless sideshow They are instead the dark and secret heart of American political history one that is poisoning the bloodstream of an increasingly sick body politic The Flower of Suffering Nuria Scapin, 2020-04-06 Greek tragedy occupies a prominent place in the development of early Greek thought However even within the partial renaissance of debates about tragedy's roots in the popular thought of archaic Greece its potential connection to the early philosophical tradition remains with few exceptions at the periphery of current interest This book

aims to show that our understanding of Aeschylus' *Oresteia* is enhanced by seeing that the trilogy's treatment of Zeus and Justice Dike shares certain concepts, assumptions, categories of thought and forms of expression with the surviving fragments and doxography of certain Presocratic thinkers especially Anaximander, Xenophanes, Heraclitus and Parmenides. By examining several aspects of the tragic trilogy in relation to Presocratic debates about theology and cosmic justice, it shows how such scrutiny may affect our understanding of the theological tension and metaphysical assumptions underpinning the *Oresteia*'s dramatic narrative. Ultimately, it argues that Aeschylus bestows on the experience of human suffering, as it is given in the contradictory multiplicity of the world, the status of a profound form of knowledge, a meeting point between the human and divine spheres. *The Literary World*, 1900 **The New Republic** Herbert David Croly, 1921 **The Supreme Court**

**and Legal Change** Lee Epstein, Joseph F. Kobylka, 2000-11-09 The authors analyze abortion and death penalty decisions by the Supreme Court and argue that they provide prime examples of abrupt legal change. After proposing that the strength of legal arguments has at least as much impact on Court decisions as do public opinion and justices' political beliefs, they focus on the way litigators propel certain issues onto the Court's agenda and seek to persuade the justices to affect legal change.

Hype Jon Helgason, Sara Kärrholm, Ann Steiner, 2014-08-11 Bestsellers are the books that sell well, are read by large numbers of people and are widely talked about in the media and among readers. Yet there has been little research on the creation, reception and cultural and social significance of bestsellers. Recognizing that popular narratives play an important role in the lives of millions of readers, *Hype: Bestsellers and Literary Culture* looks closely at the literature so many people read. As global market phenomena situated in between the power spheres of producers and consumers, bestsellers also highlight the interdependency of culture, market and the individual. This volume addresses such diverse questions as the creation of hype, the role and the meaning of the author in the present-day media landscape, changes in the book trade, historical perspectives on bestselling literature and the relationship between bestsellers and literary research. Christian Work, 1894
