[The Psychology of the Western](#) William Indick, 2014-11-21 Western films are often considered sprawling reflections of the American spirit. This book analyzes the archetypes, themes, and figures within the mythology of the western frontier. Western themes are interpreted as expressions of cultural needs that perform specific psychological functions for the audience. Chapters are devoted to the frontier hero character, the roles of women and Native Americans, and the work of the genre's most prolific directors, Anthony Mann and John Ford. The book includes a filmography and movie stills. Instructors considering this book for use in a course may request an examination copy here. Field Marshal Von Manstein Marcel Stein, 2007-02 Most military historians are in agreement that Feldmarschall Erich von Manstein was the most outstanding German high commander of the Second World War. Many view him as the foremost exponent of large-scale mobile operations in any of the Second World War armies. Surprisingly, no biography of him has yet been written. To this day, his family refuses to release the papers of his estate to the German military archives at Freiburg. Furthermore, the contradictions in the personality of von Manstein make it difficult to generate a synthesis. On one side, there is an extraordinary military talent; on the other, many political and moral aspects. His military achievements stand in sharp contrast to his inhumane policy of occupation in Russia, his active participation in the slaughter of Jews in Southern Ukraine and the Crimea, and his ambivalent attitude to the military resistance movement. These contradictions have led the author to describe Manstein as the Janushead, the term chosen for the title of the book. He has not written a traditional biography but a portrait. A complete account of all phases of Manstein's career is given in one chapter; seven more chapters deal extensively with milestones in Manstein's career, his successful plan for the battle of France which led to the defeat of the French Army in

less than one month his dereliction of duty during the battle for Stalingrad his hubris which led to the disaster of the battle for Kursk his refusal to take part in the military resistance movement his compliance with the Commissar order and his involvement in the Holocaust he author has widened the subject well beyond the personality of its central figure It shows how the Nazi system step by step succeeded in perverting the centuries old traditions of the Prussian and German officer corps

Turning The Tide Thomas McKelvey Cleaver, 2024-08-15 Packed with personal accounts of the action this is a vivid narrative history of the often overlooked USAAF campaign in North Africa and Sicily in World War II In 1942 the Western Allies needed to take the offensive against the Axis to relieve pressure on the Soviet Union With planning for a cross Channel invasion beset by logistical and operational difficulties in May 1942 President Roosevelt ordered his military leaders to prepare to support the British in the Mediterranean This led to the first USAAF units arriving in the Middle East in July firstly as reinforcements for the British and later as part of the Operation Torch landings in French Morocco and Algeria in November In little over ten months from the summer of 1942 the USAAF in North Africa grew from nothing to a senior partner providing aircraft and crews the other Allies were unable to match The Axis forces that had controlled almost the entire southern shore of the Mediterranean had been swept from the African continent thanks in no small part to the efforts of the USAAF Using first hand accounts from pilots and other aircrew Tom Cleaver describes how the USAAF units that landed in Morocco were forced to learn their own lessons in combat with veteran Luftwaffe units and how the experience gained in the skies over North Africa and Sicily was invaluable in developing the air forces that would dominate the skies over Europe in the latter years of the war
